Abstracts

Cryotherapy is the application of extremely low temperature (-170° to -240°) applied for a short time to achieve medical or aesthetic effects such as stimulation of physiological reactions in the human body. Ever-increasing beauty industry of Europe is adopting the thriving new concept of whole body cryotherapy, which is attributed to the growth of the Europe cryochambers market. Increasing adoption of whole body cryotherapy by sports persons and elite athletes is increasing demand for cryochambers in Europe. Rising number of sports injuries and continuous expansion of cryotherapy applications are some of the factors driving revenue growth of the Europe cryochambers market. Key players in the Europe market are focusing on forming strategic partnerships with key end users such as sports associations.

SCOPE OF THE REPORT:

This report studies the Cryochambers market status and outlook of Global and major regions, from angles of players, countries, product types and end industries; this report analyzes the top players in global market, and splits the Cryochambers market by product type and applications/end industries.

Europe cryochambers market is mainly driven by rapid adoption by sports and athletes associations, entry of new players in the market, launch of new user-friendly and advanced products, captivating product features offered by companies etc. Moreover, surge in the number of sports injuries, expansion of product indications, and geographical expansion of product offerings by key market players are some other factors fueling the growth of the Europe cryochambers market over the forecast period. Introduction of more efficient cryosauna is expected to increase the adoption rate of individual cryotherapy chambers by facilities such as spas and fitness centers. However, lack of evidence pertaining to the safety and efficacy of cryotherapy for

certain medical applications, lack of fully evolved regulatory pathways, adverse effects of cryotherapy, shortage of cryogenic liquids and gases in some of the central and eastern European countries etc. are the prominent factors limiting the growth of the Europe cryochambers market.

The global Cryochambers market is valued at xx million USD in 2017 and is expected to reach xx million USD by the end of 2023, growing at a CAGR of xx% between 2017 and 2023.

The Asia-Pacific will occupy for more market share in following years, especially in China, also fast growing India and Southeast Asia regions.

North America, especially The United States, will still play an important role which cannot be ignored. Any changes from United States might affect the development trend of Cryochambers.
