Abstracts

The global Curbside Pickup Solutions market size is expected to reach $ 8590 million by 2032, rising at a market growth of 10.7% CAGR during the forecast period (2026-2032).

Curbside pickup solutions refer to an omnichannel retail fulfillment model in which customers place orders online and collect purchases from designated curbside pickup zones at retail stores, supermarkets, pharmacies, or service locations. These solutions integrate geofencing, mobile notifications, order management systems (OMS), store fulfillment platforms, and customer verification technologies to facilitate arrival detection, order preparation, and contactless delivery. The model combines the convenience of e-commerce with the speed of local fulfillment and has become an important component of modern retail operations.

This report studies the global Curbside Pickup Solutions demand, key companies, and key regions.

This report is a detailed and comprehensive analysis of the world market for Curbside Pickup Solutions, and provides market size (US$ million) and Year-over-Year (YoY) growth, considering 2025 as the base year. This report explores demand trends and competition, as well as details the characteristics of Curbside Pickup Solutions that contribute to its increasing demand across many markets.
