Abstracts

A debt collection is a type of financial account that's been sent to a third-party debt collector. Debt collectors are companies who collect unpaid debts for others. The original company with which you created the debt most likely assigned or sold the account to the collection agency after you missed several payments and it was unable to get you to pay. It's usually more cost-effective for companies to hire debt collectors than to continue to spend their own resources pursuing payment on delinquent accounts.

According to our (Global Info Research) latest study, the global Debt Collection Services market size was valued at US\$ 31970 million in 2023 and is forecast to a readjusted size of USD 38290 million by 2030 with a CAGR of 2.6% during review period.
