Abstracts

A deep fryer is a kitchen appliance used for deep frying. While commonly used in commercial kitchens, household models are available and have become common. Deep fryer provide cooks with the opportunity to produce restaurant-quality fried foods. While they are not among the list of mandatory kitchen appliances, deep fryers are becoming more practical due to their convenience. The fryer's capacity level allows cooks to fry a variety of foods.

Deep fryers feature a basket to raise food clear of the oil when cooking is finished. Fryer often come with features such as timers with an audible alarm, automatic devices to raise and lower the basket into the oil, measures to prevent food crumbs from becoming over cooked, ventilation systems to reduce frying odors, oil filters to extend the usable life of the oil, and mechanical or electronic temperature controls. Deep fryers are used for cooking many fast foods, and making them crisp.

SCOPE OF THE REPORT:

This report focuses on the Deep Fryer in global market, especially in North America, Europe and Asia-Pacific, South America, Middle East and Africa. This report categorizes the market based on manufacturers, regions, type and application.

The deep fryer industry concentration is very low; there are at least more than hundreds manufacturers in the world, and high-end products mainly from USA.

Although improving the living standards of residents and market demand expanding in recent years, various brands increased, and alternative fryer to seize the market will influence marketing for down effect.

Although sales of deep fryer brought a lot of opportunities, for the new entrants with only advantage in capital without sufficient support in technology and downstream channels,

the research group did not recommend taking risk to enter this market.

The worldwide market for Deep Fryer is expected to grow at a CAGR of roughly 2.9% over the next five years, will reach 590 million US\$ in 2023, from 500 million US\$ in 2017, according to a new GIR (Global Info Research) study.
