According to our (Global Info Research) latest study, the global Deep Vein Thrombosis (DVT) Pumps market size was valued at US\$ 1318 million in 2025 and is forecast to a readjusted size of US\$ 2154 million by 2032 with a CAGR of 7.2% during review period.

In 2025, global Deep Vein Thrombosis (DVT) Pumps production reached approximately 16,937.88 K units, with an average global market price of around 75.6 USD/unit.

Deep Vein Thrombosis (DVT) Pumps are specialized pneumatic compression medical devices designed to prevent deep vein thrombosis by enhancing venous blood circulation in the limbs. Operating on the principle of simulating natural muscle contractions, these devices apply sequential or intermittent gradient pressure to the limbs through inflatable cuffs, promoting blood and lymphatic fluid return, reducing venous stasis, and inhibiting blood clot formation. As non-invasive preventive equipment, they are widely used in clinical settings, featuring adjustable pressure settings and cycle parameters to adapt to different patient needs, and play a crucial role in protecting high-risk groups such as post-surgical patients, the elderly, and immobile individuals from life-threatening venous thromboembolism complications.

Global demand for DVT Pumps is growing steadily, driven by the aging global population, the increasing incidence of venous thromboembolism, the rising number of surgical procedures requiring post-operative anti-thrombotic care, and enhanced awareness of preventive healthcare. Business opportunities lie in developing intelligent, portable products integrated with remote monitoring and data analytics functions to meet home care needs, optimizing product designs for improved patient comfort and

compliance, expanding market penetration in emerging economies through localized production and policy-aligned strategies, and strengthening collaborations with healthcare institutions to promote standardized clinical application, while exploring the integration of digital health services to extend the value chain.
