## Abstracts

According to our (Global Info Research) latest study, the global Dehydrolinalool market size was valued at US\$ 221 million in 2025 and is forecast to a readjusted size of US\$ 299 million by 2032 with a CAGR of 4.4% during review period.

In 2025, the global production of dehydrolinalool was approximately 8,600 tons, with an average selling price of around US\$25 per kilogram. The scale of single-line production capacity varies depending on the production process and investment scale, with an average gross profit margin of approximately 20-35%. Dehydrolinalool is an organic compound belonging to the terpene alcohol family, possessing a woody, spicy, and aromatic scent. It is widely used as a fragrance ingredient in perfumes, flavorings, and cosmetics. It is typically produced from linalool through a dehydrogenation reaction and is a natural component of many plants, especially aromatic plants such as the camphor tree. Due to its unique aroma and biological activities such as antibacterial and antioxidant properties, dehydrolinalool is often used in high-end perfumes and skincare products.

The upstream supply chain of dehydrolinalool mainly involves the extraction and production of raw materials, primarily natural plant essential oils such as linalool and camphor oil, which are obtained through distillation or chemical synthesis. The downstream supply chain covers multiple application industries, mainly including the fragrance and flavor industry, cosmetics and personal care products (such as perfumes and skincare products), and some pharmaceuticals and agrochemicals. In these fields, dehydrolinalool is mainly used as a fragrance ingredient, widely employed to enhance the aroma and biological activity of products.

This report is a detailed and comprehensive analysis for global Dehydrolinalool market.

Both quantitative and qualitative analyses are presented by manufacturers, by region & country, by Type and by Application. As the market is constantly changing, this report explores the competition, supply and demand trends, as well as key factors that contribute to its changing demands across many markets. Company profiles and product examples of selected competitors, along with market share estimates of some of the selected leaders for the year 2025, are provided.

### **Key Features:**

Global Dehydrolinalool market size and forecasts, in consumption value (\$ Million), sales quantity (Tons), and average selling prices (US\$/kg), 2021-2032

Global Dehydrolinalool market size and forecasts by region and country, in consumption value (\$ Million), sales quantity (Tons), and average selling prices (US\$/kg), 2021-2032

Global Dehydrolinalool market size and forecasts, by Type and by Application, in consumption value (\$ Million), sales quantity (Tons), and average selling prices (US\$/kg), 2021-2032

Global Dehydrolinalool market shares of main players, shipments in revenue (\$ Million), sales quantity (Tons), and ASP (US\$/kg), 2021-2026

### **The Primary Objectives in This Report Are:**

To determine the size of the total market opportunity of global and key countries

To assess the growth potential for Dehydrolinalool

To forecast future growth in each product and end-use market

To assess competitive factors affecting the marketplace

This report profiles key players in the global Dehydrolinalool market based on the following parameters - company overview, sales quantity, revenue, price, gross margin, product portfolio, geographical presence, and key developments. Key companies covered as a part of this study include Inoue Perfumery MFG, Jian City GuGuang Fragrance Factory, Jiangxi Xuesong Natural Medicinal Oil, Jiangxi Xinsen Natural Plant Oil, Tianmen Hengchang Chemical, etc.

This report also provides key insights about market drivers, restraints, opportunities, new product launches or approvals.

### **Market Segmentation**

Dehydrolinalool market is split by Type and by Application. For the period 2021-2032, the growth among segments provides accurate calculations and forecasts for consumption value by Type, and by Application in terms of volume and value. This analysis can help you expand your business by targeting qualified niche markets.

#### Market segment by Type

Natural Linalool

Synthetic Linalool

#### Market segment by Purity

Purity

## Contents

### 1 MARKET OVERVIEW

1.1 Product Overview and Scope

1.2 Market Estimation Caveats and Base Year

1.3 Market Analysis by Type

1.3.1 Overview: Global Dehydrolinalool Consumption Value by Type: 2021 Versus 2025 Versus 2032

1.3.2 Natural Linalool

1.3.3 Synthetic Linalool

1.4 Market Analysis by Purity

1.4.1 Overview: Global Dehydrolinalool Consumption Value by Purity: 2021 Versus 2025 Versus 2032

1.4.2 Purity

## List Of Tables
