Abstracts

Dental eye lopes enhance visual acuity through the magnifying effect, which not only make dental operation more accurate, but also help doctors to improve the operation posture of oral diagnosis and treatment to a certain extent. To integrate ergonomics and efficiency, dentist magnifying glasses enable dentists and surgeons to work in comfort. Choosing the right tilt Angle will provide the minimum forward tilt and reduce tension in the neck. For ease of use, the dental hygienist magnifying glasses are designed with the best Angle of inclination.
