Abstracts

Dental mainly refers to the dental devices and instruments, Dental consumables for the maintenance of healthy teeth. It can be divided into two parts:

Dental consumables are products which are used on patients in order to treat dental impairments, for tooth restoration and in treatment of associated gingival tissues. The dental consumables product market is segmented into dental implants, crowns and bridges, biomaterials, orthodontics, endodontic, periodontics and other consumables.

Dental equipment is the tools that dentists use to provide dental treatment. They include simple to advanced devices to examine, manipulate, restore and remove teeth and surrounding oral structures.

Scope of the Report:

This report studies the Dental market status and outlook of Global and major regions, from angles of players, countries, product types and end industries; this report analyzes the top players in global market, and splits the Dental market by product type and applications/end industries.

The principal categories of the dental products market are dental consumables and dental equipment. The largest geographical markets for dental products are in North America, Europe, and followed by the rest of Asia, Latin America, Africa, the Middle East, and Australia.

Expansion of the elderly population worldwide and increasing consumer awareness of oral healthcare needs are propelling the expansion of the global dental market. Among

the product segments, dental implants market will have the fastest market growth.

Analysis of the Dental Products Market Of particular note is Dentsply's merger with Sirona Dental Systems which closed in late February 2016. The \$5.4 billion merger combined Dentsply's market leading dental consumables platform with Sirona's dominant dental technology business. The consolidated company, Dentsply Sirona, will offer the most products and technological solutions within the global dental products market, and is expected to generate more than \$125 million in cost-savings synergies over the next three years.

It is estimated that demand for dental care treatment will increase significantly in the coming decade. Large demand for treatment, as well as the growing economy, means more care with better services and facilities will be needed, providing opportunities for the private sector. The current private market consists of many small clinics, which offers a big opportunity for major chains with a reputation for quality.

The global Dental market is valued at 26000 million USD in 2017 and is expected to reach 36500 million USD by the end of 2023, growing at a CAGR of 5.8% between 2017 and 2023.

The Asia-Pacific will occupy for more market share in following years, especially in China, also fast growing India and Southeast Asia regions.

North America, especially The United States, will still play an important role which cannot be ignored. Any changes from United States might affect the development trend of Dental.

Europe also play important roles in global market, with market size of xx million USD in 2017 and will be xx million USD in 2023, with a CAGR of xx%.
