Abstracts

According to our (Global Info Research) latest study, the global Dental Tourism market size was valued at US\$ 405 million in 2024 and is forecast to a readjusted size of USD 542 million by 2031 with a CAGR of 4.3% during review period.

Dental tourism is an activity of going from one country to another with an affordable and accessible means for dental treatment. In Europe, it is also known as 'dental vacation' or 'dental holidays'. This Industry is increasing fast and prices differ from country to country. The things that need to consider when choosing a dentist for medical tourism are price, location, and service quality. Individuals travel to other cities and countries who prefer low-cost treatment this is expected to drive the market sales. The market is anticipated to increase due to the rising healthcare costs and low rates in emerging countries for dental treatment. High cost of treatment, long waiting times for patients, and increased awareness of oral health are the factors driving the market sales.

According to our research, the global market for medical devices is estimated at US\$ 603 billion in the year 2023, and will be growing at a CAGR of 5% during next six years. The global healthcare spending contributes to occupy 10% of the global GDP and is continuously rising in recent years due to the increasing health needs of the aging population, the growing prevalence of chronic and infectious diseases and the expansion of emerging markets. The medical devices market plays a significant role in the healthcare industry. The market is driven by several factors, including the increasing demand for advanced healthcare services globally, advancements in medical technology, growing geriatric population, rising healthcare expenditure, and increasing awareness about early disease diagnosis and treatment.
