Abstracts

According to our (Global Info Research) latest study, the global Digital Business Card market size was valued at USD 341.1 million in 2023 and is forecast to a readjusted size of USD 609 million by 2030 with a CAGR of 8.6% during review period.

A Digital business card, or virtual business card, is often shared via email in your contact signature. Instead of mentioning your social details in the body of the email, it's easier to have them all in an e business card at the bottom in the form of a signature. Most virtual business card tools will help you generate a card to add as the signature to your email.

The purpose of a digital business card is simple: to help you connect with more potential clients, partners, and co-workers.

The point of an e business card is to create a single, simple, shareable file with all of your contact details. That way, the recipient has no friction to follow your account on social media or contact you using the details.
