Abstracts

According to our (Global Info Research) latest study, the global Dilauryl Thiodipropionate (DLTDP) market size was valued at US\$ 148 million in 2025 and is forecast to a readjusted size of US\$ 188 million by 2032 with a CAGR of 3.6% during review period.

In 2025, global Dilauryl Thiodipropionate (DLTDP) production reached approximately 27.3 k tons, with an average global market price of around US\$5,292 per ton. Dilauryl Thiodipropionate (DLTDP), CAS: 123-28-4, is a versatile, sulfur-based thioester antioxidant used to prevent oxidation, degradation, and discoloration. It appears as white, crystalline flakes with a sweet odor. It functions primarily as a stabilizer to extend the shelf life of plastics, cosmetics, and foods.

The global dilauryl thiodipropionate (DLTDP) market is supported by basic demand from downstream polymer materials and lubricant industries, presenting a mature, stable, slow-growing yet structurally optimized profile. DLTDP exhibits significant synergistic effects when combined with hindered phenolic primary antioxidants, and is widely used in material systems requiring long-term thermal-oxidative aging protection. The downstream demand structure adjusts with global industrial upgrading, and sectors such as new energy vehicle components, food-contact packaging materials and electronic appliance insulated cables have raised requirements for material durability and safety, becoming core drivers of structural market growth.

In terms of competitive landscape, international giants dominate the high-end market while Chinese enterprises catch up rapidly. International chemical companies maintain leading positions in high-end applications with profound technological accumulation and

global customer service networks. Chinese enterprises have gradually reached international standards in product quality through continuous process improvement and capacity expansion, with steadily increasing market share and rising overall industry concentration. Against the backdrop of global supply chain restructuring, major manufacturers accelerate regional capacity layout, and leading Chinese enterprises advance overseas production base construction to approach end markets and reduce cross-border trade uncertainties.

The policy environment exerts a profound impact on market operation. Global environmental regulations continue to tighten, imposing stricter requirements on energy consumption, emissions, product toxicity and migration, forcing the industry to eliminate backward production capacity and shift to green and low-carbon production processes. China's industrial policies support the domestic substitution of high-end polymer additives, providing favorable conditions for domestic enterprises. The improvement of international chemical regulatory systems such as the EU REACH Regulation has raised market entry barriers and promoted enterprises to strengthen full-life-cycle compliance management. Technological development focuses on performance optimization and green transformation, with compound formulation advancement and bio-based raw material substitution as key innovation directions.

This report is a detailed and comprehensive analysis for global Dilauryl Thiodipropionate (DLTDP) market. Both quantitative and qualitative analyses are presented by manufacturers, by region & country, by Type and by Application. As the market is constantly changing, this report explores the competition, supply and demand trends, as well as key factors that contribute to its changing demands across many markets. Company profiles and product examples of selected competitors, along with market share estimates of some of the selected leaders for the year 2025, are provided.

Key Features:

Global Dilauryl Thiodipropionate (DLTDP) market size and forecasts, in consumption value (\$ Million), sales quantity (Tons), and average selling prices (US\$/Ton), 2021-2032

Global Dilauryl Thiodipropionate (DLTDP) market size and forecasts by region and country, in consumption value (\$ Million), sales quantity (Tons), and average selling prices (US\$/Ton), 2021-2032

Global Dilauryl Thiodipropionate (DLTDP) market size and forecasts, by Type and by

Application, in consumption value (\$ Million), sales quantity (Tons), and average selling prices (US\$/Ton), 2021-2032

Global Dilauryl Thiodipropionate (DLTDP) market shares of main players, shipments in revenue (\$ Million), sales quantity (Tons), and ASP (US\$/Ton), 2021-2026

The Primary Objectives in This Report Are:

To determine the size of the total market opportunity of global and key countries

To assess the growth potential for Dilauryl Thiodipropionate (DLTDP)

To forecast future growth in each product and end-use market

To assess competitive factors affecting the marketplace

This report profiles key players in the global Dilauryl Thiodipropionate (DLTDP) market based on the following parameters - company overview, sales quantity, revenue, price, gross margin, product portfolio, geographical presence, and key developments. Key companies covered as a part of this study include BASF, SI Group, SONGWON, Rianlon Corporation, Zhejiang Huangma Technology, Jiangsu Jiye Chemical Group, UBE Corporation, Suqian Unitech, Jiangsu Feiya Chemical Corporation, Reagens S.p.A., etc.

This report also provides key insights about market drivers, restraints, opportunities, new product launches or approvals.

Market Segmentation

Dilauryl Thiodipropionate (DLTDP) market is split by Type and by Application. For the period 2021-2032, the growth among segments provides accurate calculations and forecasts for consumption value by Type, and by Application in terms of volume and value. This analysis can help you expand your business by targeting qualified niche markets.

Market segment by Type

Contents

1 MARKET OVERVIEW

1.1 Product Overview and Scope

1.2 Market Estimation Caveats and Base Year

1.3 Market Analysis by Type

1.3.1 Overview: Global Dilauryl Thiodipropionate (DLTDP) Consumption Value by Type: 2021 Versus 2025 Versus 2032

1.3.2 Powder

1.3.3 Pastilles

1.3.4 Liquid

1.4 Market Analysis by Purity

1.4.1 Overview: Global Dilauryl Thiodipropionate (DLTDP) Consumption Value by Purity: 2021 Versus 2025 Versus 2032

1.4.2 Purity ?99%

1.4.3 Purity
