According to our (Global Info Research) latest study, the global Diphenyl Carbonate market size was valued at USD 4300.7 million in 2022 and is forecast to a readjusted size of USD 7252.8 million by 2029 with a CAGR of 7.8% during review period.

Diphenyl Carbonate, white needle-like crystal, melting point 78~83°C, boiling point 302~306°C, easily soluble in acetone, hot alcohol, benzene, carbon tetrachloride, ether, glacial acetic acid and other organic solvents, insoluble in water, can be decomposed by hot alkali.

Diphenyl Carbonate can be used to synthesize a variety of organic intermediates and polymer materials, such as polycarbonate, methylparaben, monoisocyanate, diisocyanate, etc.; it can also be used as a plasticizer, solvent and heat source for polyamide and polyester, etc.

With the development of new environmentally friendly processes for synthesizing high-quality polycarbonate using Diphenyl Carbonate and bisphenol A as raw materials, and the continuous expansion of polycarbonate application fields, the demand for Diphenyl Carbonate has also increased rapidly.

Since Diphenyl Carbonate is a chemical intermediate, all most Diphenyl Carbonate manufacturers on the market produce and sell their own products for the production of polycarbonate (PC).

Therefore, this report includes self-produced and self-sold manufacturers and commodity sales manufacturers.

In the global market, the core manufacturers of Diphenyl Carbonate are SABIC, Covestro, and Lotte Chemical, with the top three players in the industry accounting for more than 60% of the market share. North America, Europe, and Asia-Pacific are the major production regions for this product, with Asia-Pacific accounting for more than 60% of the global market share. The product can be classified on the basis of product type into non-phosgene and phosgene. The product is widely used in the production of polycarbonate resins and other products.

The Global Info Research report includes an overview of the development of the Diphenyl Carbonate industry chain, the market status of Polycarbonate Resins (Non-Phosgene Type, Phosgene Type), Others (Non-Phosgene Type, Phosgene Type), and key enterprises in developed and developing market, and analysed the cutting-edge technology, patent, hot applications and market trends of Diphenyl Carbonate.

Regionally, the report analyzes the Diphenyl Carbonate markets in key regions. North America and Europe are experiencing steady growth, driven by government initiatives and increasing consumer awareness. Asia-Pacific, particularly China, leads the global Diphenyl Carbonate market, with robust domestic demand, supportive policies, and a strong manufacturing base.
