According to our (Global Info Research) latest study, the global Disposable Toothbrush market size was valued at USD million in 2023 and is forecast to a readjusted size of USD million by 2030 with a CAGR of % during review period.

Disposable toothbrush is usually smaller in size, cheaper, and used only once before it is discarded. Usually, it comes in pre-pasted form with the toothpaste already on the toothbrush in smaller quantities. All one need is water to activate the paste and start using it. This type of toothbrush is perfect for traveling, camping, military, airlines, and hospitality. The disposable toothbrush is also good for those who have braces. Choosing disposable toothbrush is bit complex as one needs to determine their priority like someone wants it in small size which is easy to carry or some want to use it twice without pre-pasted.
