Abstracts

The global Double Eyelid Stickers market size is expected to reach $ 499 million by 2032, rising at a market growth of 4.1% CAGR during the forecast period (2026-2032).

In 2025, global output of double eyelid stickers reached 112 million packs, with an average selling price of US$3.25 per pack, production capacity of 140 million packs, and an average gross margin of 43.0%.

Double eyelid stickers are non-invasive cosmetic accessories designed to temporarily create, deepen, or visually define an upper-eyelid crease. They are typically made from transparent film, pressure-sensitive adhesive, fiber, or mesh materials, and are available in single-sided, double-sided, water-activated, and glue-free self-adhesive formats. Applied to the upper eyelid, they are mainly used for daily makeup, professional makeup, and stage or photographic looks.

In 2025, demand for double eyelid stickers was concentrated in China, Japan, South Korea, Southeast Asia, and other makeup-oriented markets. Chinese manufacturers held a strong position in low-priced bulk packs and OEM/ODM supply, while branded products were mainly distributed through beauty retailers, drugstores, e-commerce platforms, official flagship stores, and cross-border e-commerce channels. Market growth was driven by demand for invisible appearance, long wear, skin comfort, suitability for different eye shapes, and convenience, while product homogenization, price competition, quality compliance, and skin-irritation risk management remained key industry considerations.
