Abstracts

The global Dried Backpacking Meal market size is expected to reach $ 371 million by 2032, rising at a market growth of 4.2% CAGR during the forecast period (2026-2032).

Dried backpacking meals are a type of convenient food designed for hiking, camping or long-distance travel. They remove moisture from food through a dehydration process, thereby reducing weight and volume, making them easier to carry and store. This type of meal usually uses low-temperature dehydration technology to remove moisture from the food during the production process to retain its nutrients and flavor. When using it, just add hot water or directly add hot water to the food bag, and it can be eaten in a few minutes, which is very convenient. Dried backpacking meals usually contain high calories, rich protein, carbohydrates, and essential vitamins and minerals, which can meet the energy needs of long-term outdoor activities. In 2025, global Dried Backpacking Meal production reached approximately 9765 k units, with an average global market price of around 26 USD/unit,.The production capacity for Dried Backpacking Meal in 2025 was approximately 10000 k units. The typical gross profit margin for Dried Backpacking Meal between 20% and 40%.

The Dried Backpacking Meal market is driven by the growing popularity of outdoor recreation, hiking, camping, road trips, adventure tourism, and emergency food storage. Demand is increasing as consumers seek lightweight gear, easy meal preparation, long shelf life, improved taste, and more nutritious outdoor food options. Freeze-dried meals, dehydrated meals, high-protein meals, vegetarian meals, gluten-free meals, and clean-label products are gaining wider acceptance among backpackers and campers. North America and Europe remain key markets due to mature outdoor cultures and large camping and hiking communities, while Asia-Pacific is expected to show faster growth supported by rising outdoor tourism and younger consumers.

This report studies the global Dried Backpacking Meal production, demand, key manufacturers, and key regions.

This report is a detailed and comprehensive analysis of the world market for Dried Backpacking Meal and provides market size (US$ million) and Year-over-Year (YoY) Growth, considering 2025 as the base year. This report explores demand trends and competition, as well as details the characteristics of Dried Backpacking Meal that contribute to its increasing demand across many markets.

Highlights and key features of the study

Global Dried Backpacking Meal total production and demand, 2021-2032, (K Units)
Global Dried Backpacking Meal total production value, 2021-2032, (USD Million)
Global Dried Backpacking Meal production by region & country, production, value, CAGR, 2021-2032, (USD Million) & (K Units), (based on production site)
Global Dried Backpacking Meal consumption by region & country, CAGR, 2021-2032 & (K Units)
U.S. VS China: Dried Backpacking Meal domestic production, consumption, key domestic manufacturers and share
Global Dried Backpacking Meal production by manufacturer, production, price, value and market share 2021-2026, (USD Million) & (K Units)
Global Dried Backpacking Meal production by Type, production, value, CAGR, 2021-2032, (USD Million) & (K Units)
Global Dried Backpacking Meal production by Application, production, value, CAGR, 2021-2032, (USD Million) & (K Units)

This report profiles key players in the global Dried Backpacking Meal market based on the following parameters - company overview, production, value, price, gross margin, product portfolio, geographical presence, and key developments. Key companies covered as a part of this study include Mountain House, Backpacker's Pantry, Peak Refuel, AlpineAire, Good To-Go, Packit Gourmet, Trailtopia, Outdoor Herbivore, Nomad Nutrition, LYOFOOD, etc.

This report also provides key insights about market drivers, restraints, opportunities, new product launches or approvals.
