## Abstracts

A drip coffee maker works by sending hot water over coffee grounds that are held in a filter. The coffee brews and then drips into a heated container that keeps the coffee hot and ready for consumption.

Scope of the Report:

This report focuses on the Drip Coffee Makers in global market, especially in North America, Europe and Asia-Pacific, South America, Middle East and Africa. This report categorizes the market based on manufacturers, regions, type and application. The technical barriers of drip coffee makers are high, and the core technology of drip coffee makers concentrates in relative large companies including Electrolux, Conair Corporation, Bonavita, Melitta and NACCO etc. These companies mainly concentrate in USA, Europe. However, most of drip coffee makers are mainly produced by the Chinese enterprises for OEM.

Drip coffee makers are widely used in cafe, hotel, restaurant, companies, home, etc. As the demand increases rapidly with higher spending propensity and a rising demand for coffee in emerging regions, such as in China, the demand for drip coffee makers is expected to continue increasing during the remaining years of the forecast period of 2018-2023. Drip coffee makers industry will usher in a stable growth space.

In the past few years, the price of drip coffee makers has a little change and we expect the price will slightly lower. However, the improvement of energy, transportation costs, employee wages, and equipment depreciation will play a significant role in promoting the cost of drip coffee makers.

As the same time, companies are focusing on technological innovation, equipment upgrades, and process improvements, to reduce costs and improve quality. With the snatch for market share in emerging regions, the competition in drip coffee makers industry will become more intense.

The worldwide market for Drip Coffee Makers is expected to grow at a CAGR of roughly 2.6% over the next five years, will reach 2100 million US\$ in 2023, from 1810 million US\$ in 2017, according to a new GIR (Global Info Research) study.
