Abstracts

According to our (Global Info Research) latest study, the global Drone Insurance market size was valued at USD 1895.3 million in 2022 and is forecast to a readjusted size of USD 2946.8 million by 2029 with a CAGR of 6.5% during review period. The influence of COVID-19 and the Russia-Ukraine War were considered while estimating market sizes.

The word “drone” is used to describe an unmanned aircraft, and insurance for drones is a type of coverage intended to protect the aircraft itself as well as the aircraft owner against claims due to damage, accidental injury, and more. While buying drone insurance for commercial purchases likely seems like a no-brainer, many drone enthusiasts also buy coverage for recreational use. This buys them peace of mind so they can have fun flying without having to worry about hurting someone or damaging someone’s property.

This report is a detailed and comprehensive analysis for global Drone Insurance market. Both quantitative and qualitative analyses are presented by company, by region & country, by Type and by Application. As the market is constantly changing, this report explores the competition, supply and demand trends, as well as key factors that contribute to its changing demands across many markets. Company profiles and product examples of selected competitors, along with market share estimates of some of the selected leaders for the year 2023, are provided.

Key Features:
