Abstracts

The global Drone Insurance market size is expected to reach \$ 2946.8 million by 2029, rising at a market growth of 6.5% CAGR during the forecast period (2023-2029).

The word “drone” is used to describe an unmanned aircraft, and insurance for drones is a type of coverage intended to protect the aircraft itself as well as the aircraft owner against claims due to damage, accidental injury, and more. While buying drone insurance for commercial purchases likely seems like a no-brainer, many drone enthusiasts also buy coverage for recreational use. This buys them peace of mind so they can have fun flying without having to worry about hurting someone or damaging someone’s property.

This report studies the global Drone Insurance demand, key companies, and key regions.

This report is a detailed and comprehensive analysis of the world market for Drone Insurance, and provides market size (US\$ million) and Year-over-Year (YoY) growth, considering 2022 as the base year. This report explores demand trends and competition, as well as details the characteristics of Drone Insurance that contribute to its increasing demand across many markets.
