Abstracts

According to our latest research, the global Dropshipping Services market size will reach USD 1568210 million in 2031, growing at a CAGR of 21.1% over the analysis period.

Dropshipping services refer to third-party solutions that facilitate the sale of products without the retailer holding inventory. In this fulfillment method, the retailer lists products from a supplier, and when a customer places an order, the supplier directly ships the product to the customer. The retailer acts as an intermediary, managing sales and customer service without handling the physical goods.
