## Abstracts

According to our (Global Info Research) latest study, the global Domestic Courier, Express, and Parcel market size was valued at USD 4783.7 million in 2023 and is forecast to a readjusted size of USD 5946.8 million by 2030 with a CAGR of 3.2% during review period.

Domestic Courier, Express, and Parcel is a way to make consumers quickly purchase goods through online purchase through logistics. At present, this industry is developing rapidly with the increasing demand for online shopping. Traditionally the focus of CEP companies was to provide services to the B2B sector. CEP services were synonymous with catering to Urgent Orders, High Value Low Volume goods, Time sensitive and Perishable goods. Many companies focused on delivering through CEP companies to cut down on transit times and cater to the rising demand of JIT supplies wherein more frequent but less volume of supplies were required.

To a certain extent, the rise of the CEP Industry is attributed to the failure of the traditional Postal companies to cope with the changing customer responsiveness, not being more market focused and not able to provide faster services. With the market becoming global, the CEP companies expanded into various geographies, through their International services and started capturing more market share.
