## Abstracts

Virtual career fair platforms help businesses and other organizations host live online events that connect job seekers with employers. These platforms manage the entire lifecycle of virtual hiring events, from registering job seekers to delivering post-event analytics reports. By hosting virtual career fairs, also known as virtual job fairs, recruiters can efficiently attract and screen larger numbers of candidates, helping save time compared to other methods of in-person recruiting. Individual companies can host their own virtual career fairs, but these platforms are also used for virtual job fairs put on by trade associations, colleges and universities, workforce development agencies, and other organizations.

According to our (Global Info Research) latest study, the global Virtual Career Fair Platform market size was valued at USD million in 2022 and is forecast to a readjusted size of USD million by 2029 with a CAGR of % during review period. The influence of COVID-19 and the Russia-Ukraine War were considered while estimating market sizes.

This report is a detailed and comprehensive analysis for global Virtual Career Fair Platform market. Both quantitative and qualitative analyses are presented by company, by region & country, by Type and by Application. As the market is constantly changing, this report explores the competition, supply and demand trends, as well as key factors that contribute to its changing demands across many markets. Company profiles and product examples of selected competitors, along with market share estimates of some of the selected leaders for the year 2023, are provided.
