Abstracts

According to our (Global Info Research) latest study, the global Edible Mushrooms market size was valued at US\$ 64464 million in 2025 and is forecast to a readjusted size of US\$ 87506 million by 2032 with a CAGR of 4.6% during review period.

Edible Mushrooms refers to commercially cultivated and marketed edible fungal fruiting bodies intended primarily for human food consumption. The market covers established commercial varieties led by Agaricus mushrooms, shiitake mushrooms, oyster mushrooms, enoki mushrooms and other cultivated edible varieties, with fresh products representing the principal commercial form alongside dried, canned and other preserved products. Production systems range from factory-controlled indoor cultivation with regulated temperature, humidity, carbon dioxide concentration, airflow and substrate conditions to conventional facility cultivation. Cultivation methods differ materially by species: Agaricus production typically relies on compost-based growing systems, while many Asian varieties use sterilized bag or bottle substrates under controlled environments. After harvesting, products are generally graded, cooled and packed for household retail, foodservice or food manufacturing, while part of the output enters drying, canning, freezing and other preservation processes. Commercial supply is distributed primarily through wholesale and distributor networks, direct retail supply and direct foodservice or industrial channels.

Key Findings

Fresh consumption remains the principal commercial destination, making freshness, shelf life and distribution efficiency critical to product value

Asia represents the dominant production region, supported by extensive cultivation capacity and mature industrial production systems

Agaricus, shiitake, oyster and enoki varieties form the principal commercial product groups in the Edible Mushrooms market

Industry profitability is highly sensitive to biological yield, selling prices, capacity utilization, labor, energy, packaging and logistics costs

Factory-controlled cultivation, improved strains and higher-value varieties are becoming increasingly important sources of competitive differentiation

Market Trends

The Edible Mushrooms industry is shifting from production expansion alone toward standardized cultivation, biological efficiency and differentiated product portfolios. Factory-controlled growers are increasing the use of automated climate management, standardized substrate preparation, mechanized material handling, production monitoring and strain improvement to stabilize yields and support year-round supply. Species-specific production technologies remain important: compost-based cultivation continues to dominate commercial Agaricus production, while bag and bottle cultivation systems are widely applied to enoki, shimeji, oyster and other Asian varieties. Product strategies are also moving beyond bulk fresh supply toward specialty varieties, organic-certified products, pre-sliced formats, mixed retail packs and preserved products with longer shelf lives. Retailers, foodservice operators and processors increasingly require consistent appearance, predictable specifications, traceability and reliable replenishment. Consequently, production-base location, saleable yield, grade consistency, cold-chain performance and multi-variety production capability are becoming more important than nominal capacity alone. Current developments in controlled cultivation and intelligent growing facilities further support the long-term transition toward more standardized and data-driven production systems.

Market Dynamics

Drivers

Edible Mushrooms have a broad and established role in household cooking, restaurants, institutional catering and food manufacturing, giving the market a diversified demand base across Asian and Western diets. Expansion of modern grocery retail, restaurant chains and prepared-food production increases demand for standardized specifications and continuous supply, favoring professional growers with controlled production systems. Indoor cultivation reduces seasonal dependence and enables producers to supply major consumption centers throughout the year. In Asia, continued modernization of facility agriculture and industrial cultivation supports higher productivity and consistent quality, while North America and Europe benefit from mature fresh retail markets and established processing demand. The combination of everyday food consumption, diversified species availability and multiple retail and foodservice applications provides the market with relatively broad demand resilience.

Restraints

Fresh Edible Mushrooms are highly perishable, placing strict requirements on harvesting schedules, cooling, packaging, inventory turnover and distribution speed. Short shelf life restricts economical delivery distances and can increase product losses when supply and demand are poorly matched. Biological cultivation cycles and fixed production facilities also limit producers' ability to respond rapidly to short-term price movements, creating periodic oversupply and margin pressure. Industrial cultivation is exposed to labor, energy, substrate, packaging, refrigeration and depreciation costs, while factory-controlled projects require meaningful initial capital expenditure. When market prices weaken or facility utilization declines, operating leverage can rapidly reduce profitability. These characteristics make capacity expansion without corresponding channel development and demand absorption increasingly risky.

Opportunities

Higher-value varieties, improved strains, controlled cultivation and convenience-oriented products provide the principal development opportunities. Shiitake, oyster, enoki and other specialty varieties offer greater product differentiation than standardized commodity products, while breeding and cultivation improvements can increase saleable yield, shorten cultivation cycles and improve consistency. Pre-sliced fresh products, mixed-variety packs, dried Edible Mushrooms, preserved products and food-manufacturing ingredients expand commercial outlets beyond immediate fresh sales and can improve utilization of different product grades. Modern controlled cultivation also provides expansion opportunities in regions where traditional production is

constrained by climate or seasonality. Greater integration of cultivation, packing, cold-chain distribution and customer planning can reduce post-harvest losses and improve product realization, while improved strains and environmental-control systems can support both cost reduction and product-quality differentiation.

Challenges

The central industry challenge is maintaining a balance between production efficiency and market absorption. Factory-controlled cultivation can increase standardized output rapidly, but excessive capacity growth can pressure prices when household consumption, foodservice demand and processing channels do not expand at the same pace. Biological contamination, strain deterioration, crop variability and facility disruptions remain operational risks. Harvesting also remains labor-intensive for several major varieties despite increasing automation in substrate preparation, environmental control, material handling and packing. Producers must simultaneously manage short shelf life, customer specifications, grade mix and regional demand fluctuations. Cross-border suppliers face additional exposure to freight costs, freshness requirements, exchange rates and trade measures, making production proximity and diversified distribution networks important strategic considerations. Recent North American trade proceedings also demonstrate that fresh-product supply chains can be materially affected by trade policy and regional sourcing conditions.

Industry Chain Analysis

The upstream Edible Mushrooms industry chain consists primarily of strain development and spawn, agricultural residues and other substrate ingredients, compost or sterilized growing media, casing materials, packaging materials, refrigeration systems and environmental-control equipment. Strain quality and substrate formulation directly affect biological conversion efficiency, cultivation cycles, contamination risk, quality grades and saleable yield. Factory-controlled operations increasingly integrate these biological inputs with sterilization, automated loading, climate control, air handling, humidity management and production-monitoring systems. Because cultivation requirements vary substantially across *Agaricus*, shiitake, oyster, enoki and other varieties, species-specific process knowledge and standardized operational management remain important barriers to efficient large-scale production.

The midstream segment covers cultivation, harvesting, grading, cooling, packing and

primary commercial distribution. Economics are determined by saleable yield, grade mix, harvesting efficiency, facility utilization, selling prices and post-harvest losses. Downstream demand is concentrated in retail, foodservice and food manufacturing. Retail channels emphasize appearance, freshness, consumer packaging and reliable replenishment; foodservice requires stable specifications and efficient bulk delivery; processors provide outlets for drying, canning, freezing and prepared-food production. Value creation therefore depends not only on biological productivity but also on the producer's ability to allocate different grades and varieties to the appropriate channels. Large integrated growers increasingly combine production, packing and distribution capabilities to improve freshness, reduce losses and strengthen customer service.

Segment Insights

By Mushroom Type, Agaricus remains a major high-volume commercial category, particularly in North America and Europe, while shiitake, oyster, enoki and related varieties have greater structural importance in Asian production and consumption. Specialty varieties generally provide greater scope for differentiation through taste, texture, culinary positioning and retail presentation, although production technologies and pricing vary considerably by species. This encourages large growers to diversify product portfolios where production systems, technical capabilities and channel access permit, reducing dependence on a single variety and improving the ability to serve differentiated retail and foodservice demand.

By Product Form and Application, fresh Edible Mushrooms remain the central commercial segment and fresh culinary consumption is the principal route to market. U.S. industry statistics provide a useful structural benchmark: during the 2024/25 Agaricus season, approximately 91% of reported sales volume entered the fresh market and approximately 9% was used for processing. Specialty mushrooms represented a smaller volume base but generally achieved materially higher grower prices than mainstream Agaricus products. In the certified-organic segment, Agaricus accounted for approximately 80% of reported organic mushroom sales volume, while specialty varieties represented approximately 20%. These indicators highlight the distinction between high-volume fresh products and smaller differentiated segments with greater unit-value potential.

Downstream Market Opportunities

Household retail remains the broadest demand platform for Edible Mushrooms, while

foodservice and food manufacturing provide important additional outlets for producers capable of supplying standardized products at scale. Restaurants, hotels, institutional catering and prepared-food operators require predictable availability, uniform grades and efficient bulk packaging, while processors can absorb products for drying, canning, freezing and prepared foods. Retail opportunities are increasingly associated with assortment and convenience, including sliced products, mixed-variety packs, specialty varieties and differentiated pack sizes. This creates opportunities to direct premium grades toward higher-value retail and foodservice channels while allocating other suitable grades to industrial processing. Producers with diversified product portfolios, strong cold-chain execution and direct customer relationships are consequently better positioned to optimize realization across multiple downstream channels.

Regional Insights

Asia represents the principal production base for Edible Mushrooms, led by China's extensive commercial cultivation industry and supported by highly developed factory-controlled production systems in Japan and South Korea. China continues to advance industrial cultivation, strain development and intelligent growing facilities, although large-scale capacity expansion can also intensify price competition when supply grows faster than downstream demand. Japan has a mature production structure characterized by controlled-environment cultivation, branded products and systematic variety management. HOKUTO CORPORATION's latest financial disclosures continue to identify mushroom operations in Japan and overseas as major business segments, reinforcing the importance of industrialized production and market development in the Japanese industry.

North America has a mature fresh-product market with substantial *Agaricus* production and a strong presence of integrated grower-packers. The United States and Canada form a closely connected supply chain in which proximity to customers, freshness, logistics reliability and regional production capacity materially affect competitiveness. European cultivation combines large fresh-market production with significant processing capability; Eurostat continues to collect specific production statistics for cultivated mushrooms across European countries, reflecting the established agricultural importance of the category. Southeast Asia and India remain smaller industrial production bases but retain longer-term opportunities as modern retail, urban food demand, refrigeration infrastructure and controlled cultivation capabilities expand.

Competitive Landscape Analysis

The global Edible Mushrooms market combines a fragmented base of local and regional growers with a smaller group of large-scale, vertically integrated or factory-controlled producers. In North America, Monterey Mushrooms, South Mill Champs, The Giorgi Companies and Highline Produce operate established cultivation, packing and distribution platforms, with scale, customer proximity and integrated logistics forming important competitive advantages. In Europe, Monaghan Mushrooms, OKECHAMP Global B.V. and Prochamp B.V. compete through cultivation capabilities, substrate expertise, processing and cross-border distribution. In Japan, HOKUTO CORPORATION and YUKIGUNI FACTORY emphasize controlled cultivation, variety development and branded product strategies. In China, Shanghai Xuerong Biotechnology Co., Ltd., Tianshui Zhongxing Bio-Technology Co., Ltd., JIANG SU CHINAGREEN BIOLOGICAL TECHNOLOGY GROUP CO., LTD., Ruyiqing Biotechnology Co., Ltd. and Fujian Wanchen Food Group Co., Ltd. participate through industrial cultivation capacity and multi-region production networks. Competitive differentiation is increasingly determined by strain resources, biological efficiency, grade consistency, facility utilization, product mix, proximity to major consumption markets and channel execution rather than capacity alone. South Mill Champs and Monaghan Mushrooms continue to describe themselves as large integrated production platforms, while current Chinese producer disclosures confirm continued emphasis on factory cultivation and operating efficiency.

Report Scope

This report is a detailed and comprehensive analysis for global Edible Mushrooms market. Both quantitative and qualitative analyses are presented by manufacturers, by region & country, by Type and by Application. As the market is constantly changing, this report explores the competition, supply and demand trends, as well as key factors that contribute to its changing demands across many markets. Company profiles and product examples of selected competitors, along with market share estimates of some of the selected leaders for the year 2025, are provided.

Key Features:

Global Edible Mushrooms market size and forecasts, in consumption value (\$ Million), sales quantity (Tons), and average selling prices (US\$/Ton), 2021-2032

Global Edible Mushrooms market size and forecasts by region and country, in consumption value (\$ Million), sales quantity (Tons), and average selling prices (US\$/Ton), 2021-2032

Global Edible Mushrooms market size and forecasts, by Type and by Application, in consumption value (\$ Million), sales quantity (Tons), and average selling prices (US\$/Ton), 2021-2032

Global Edible Mushrooms market shares of main players, shipments in revenue (\$ Million), sales quantity (Tons), and ASP (US\$/Ton), 2021-2026

The Primary Objectives in This Report Are:

To determine the size of the total market opportunity of global and key countries

To assess the growth potential for Edible Mushrooms

To forecast future growth in each product and end-use market

To assess competitive factors affecting the marketplace

This report profiles key players in the global Edible Mushrooms market based on the following parameters - company overview, sales quantity, revenue, price, gross margin, product portfolio, geographical presence, and key developments. Key companies covered as a part of this study include Monterey Mushrooms, LLC, South Mill Champs, The Giorgi Companies, Inc., Phillips Mushroom Farms, Highline Produce Limited, Monaghan Mushrooms, OKECHAMP Global B.V., Prochamp B.V., HOKUTO CORPORATION, YUKIGUNI FACTORY CO., LTD., etc.

This report also provides key insights about market drivers, restraints, opportunities, new product launches or approvals.

Edible Mushrooms market is split by Type and by Application. For the period 2021-2032, the growth among segments provides accurate calculations and forecasts for consumption value by Type, and by Application in terms of volume and value. This analysis can help you expand your business by targeting qualified niche markets.

Market Segmentation

Market segment by Type

Fresh Mushrooms

Dried Mushrooms

Canned and Preserved Mushrooms

Other Mushroom Products

Market segment by Mushroom Category

Agaricus Mushrooms

Shiitake Mushrooms

Oyster Mushrooms

Enoki Mushrooms

Other Mushrooms

Market segment by Distribution Channel

Wholesale and Distributor Channel

Direct Retail Channel

Direct Foodservice and Industrial Channel

Other Channels

Market segment by Application

Household Consumers

Foodservice

Food Manufacturers

Major players covered

Monterey Mushrooms, LLC

South Mill Champs

The Giorgi Companies, Inc.

Phillips Mushroom Farms

Highline Produce Limited

Monaghan Mushrooms

OKECHAMP Global B.V.

Prochamp B.V.

HOKUTO CORPORATION

YUKIGUNI FACTORY CO., LTD.

Shanghai Xuerong Biotechnology Co., Ltd.

Tianshui Zhongxing Bio-Technology Co., Ltd.

JIANG SU CHINAGREEN BIOLOGICAL TECHNOLOGY GROUP CO., LTD.

Ruyiqing Biotechnology Co., Ltd.

Fujian Wanchen Food Group Co., Ltd.

Dr. AG Co., Ltd.

Champ Fungi Sdn. Bhd.

Tropical Mushrooms (Goa) Private Limited

Costa Group

Market segment by region, regional analysis covers

North America (United States, Canada, and Mexico)

Europe (Germany, France, United Kingdom, Russia, Italy, and Rest of Europe)

Asia-Pacific (China, Japan, Korea, India, Southeast Asia, and Australia)

South America (Brazil, Argentina, Colombia, and Rest of South America)

Middle East & Africa (Saudi Arabia, UAE, Egypt, South Africa, and Rest of Middle East & Africa)

Chapter Outline

Chapter 1, to describe Edible Mushrooms product scope, market overview, market estimation caveats and base year.

Chapter 2, to profile the top manufacturers of Edible Mushrooms, with price, sales quantity, revenue, and global market share of Edible Mushrooms from 2021 to 2026.

Chapter 3, the Edible Mushrooms competitive situation, sales quantity, revenue, and global market share of top manufacturers are analyzed emphatically by landscape contrast.

Chapter 4, the Edible Mushrooms breakdown data are shown at the regional level, to show the sales quantity, consumption value, and growth by regions, from 2021 to 2032.

Chapter 5 and 6, to segment the sales by Type and by Application, with sales market share and growth rate by Type, by Application, from 2021 to 2032.

Chapter 7, 8, 9, 10 and 11, to break the sales data at the country level, with sales quantity, consumption value, and market share for key countries in the world, from 2021 to 2026. and Edible Mushrooms market forecast, by regions, by Type, and by Application, with sales and revenue, from 2027 to 2032.

Chapter 12, market dynamics, drivers, restraints, trends, and Porters Five Forces analysis.

Chapter 13, the key raw materials and key suppliers, and industry chain of Edible Mushrooms.

Chapter 14 and 15, to describe Edible Mushrooms sales channel, distributors, customers, research findings and conclusion.

Contents

1 MARKET OVERVIEW

1.1 Product Overview and Scope

1.2 Market Estimation Caveats and Base Year

1.3 Market Analysis by Type

1.3.1 Overview: Global Edible Mushrooms Consumption Value by Type: 2021 Versus 2025 Versus 2032

1.3.2 Fresh Mushrooms

1.3.3 Dried Mushrooms

1.3.4 Canned and Preserved Mushrooms

1.3.5 Other Mushroom Products

1.4 Market Analysis by Mushroom Category

1.4.1 Overview: Global Edible Mushrooms Consumption Value by Mushroom Category: 2021 Versus 2025 Versus 2032

1.4.2 Agaricus Mushrooms

1.4.3 Shiitake Mushrooms

1.4.4 Oyster Mushrooms

1.4.5 Enoki Mushrooms

1.4.6 Other Mushrooms

1.5 Market Analysis by Distribution Channel

1.5.1 Overview: Global Edible Mushrooms Consumption Value by Distribution Channel: 2021 Versus 2025 Versus 2032

1.5.2 Wholesale and Distributor Channel

1.5.3 Direct Retail Channel

1.5.4 Direct Foodservice and Industrial Channel

1.5.5 Other Channels

1.6 Market Analysis by Application

1.6.1 Overview: Global Edible Mushrooms Consumption Value by Application: 2021 Versus 2025 Versus 2032

1.6.2 Household Consumers

1.6.3 Foodservice

1.6.4 Food Manufacturers

1.7 Global Edible Mushrooms Market Size & Forecast

1.7.1 Global Edible Mushrooms Consumption Value (2021 & 2025 & 2032)

1.7.2 Global Edible Mushrooms Sales Quantity (2021-2032)

1.7.3 Global Edible Mushrooms Average Price (2021-2032)

2 MANUFACTURERS PROFILES

2.1 Monterey Mushrooms, LLC

2.1.1 Monterey Mushrooms, LLC Details

2.1.2 Monterey Mushrooms, LLC Major Business

2.1.3 Monterey Mushrooms, LLC Edible Mushrooms Product and Services

2.1.4 Monterey Mushrooms, LLC Edible Mushrooms Sales Quantity, Average Price, Revenue, Gross Margin and Market Share (2021-2026)

2.1.5 Monterey Mushrooms, LLC Recent Developments/Updates

2.2 South Mill Champs

2.2.1 South Mill Champs Details

2.2.2 South Mill Champs Major Business

2.2.3 South Mill Champs Edible Mushrooms Product and Services

2.2.4 South Mill Champs Edible Mushrooms Sales Quantity, Average Price, Revenue, Gross Margin and Market Share (2021-2026)

2.2.5 South Mill Champs Recent Developments/Updates

2.3 The Giorgi Companies, Inc.

2.3.1 The Giorgi Companies, Inc. Details

2.3.2 The Giorgi Companies, Inc. Major Business

2.3.3 The Giorgi Companies, Inc. Edible Mushrooms Product and Services

2.3.4 The Giorgi Companies, Inc. Edible Mushrooms Sales Quantity, Average Price, Revenue, Gross Margin and Market Share (2021-2026)

2.3.5 The Giorgi Companies, Inc. Recent Developments/Updates

2.4 Phillips Mushroom Farms

2.4.1 Phillips Mushroom Farms Details

2.4.2 Phillips Mushroom Farms Major Business

2.4.3 Phillips Mushroom Farms Edible Mushrooms Product and Services

2.4.4 Phillips Mushroom Farms Edible Mushrooms Sales Quantity, Average Price, Revenue, Gross Margin and Market Share (2021-2026)

2.4.5 Phillips Mushroom Farms Recent Developments/Updates

2.5 Highline Produce Limited

2.5.1 Highline Produce Limited Details

2.5.2 Highline Produce Limited Major Business

2.5.3 Highline Produce Limited Edible Mushrooms Product and Services

2.5.4 Highline Produce Limited Edible Mushrooms Sales Quantity, Average Price, Revenue, Gross Margin and Market Share (2021-2026)

2.5.5 Highline Produce Limited Recent Developments/Updates

2.6 Monaghan Mushrooms

2.6.1 Monaghan Mushrooms Details

- 2.6.2 Monaghan Mushrooms Major Business
- 2.6.3 Monaghan Mushrooms Edible Mushrooms Product and Services
- 2.6.4 Monaghan Mushrooms Edible Mushrooms Sales Quantity, Average Price, Revenue, Gross Margin and Market Share (2021-2026)
- 2.6.5 Monaghan Mushrooms Recent Developments/Updates
- 2.7 OKECHAMP Global B.V.
 - 2.7.1 OKECHAMP Global B.V. Details
 - 2.7.2 OKECHAMP Global B.V. Major Business
 - 2.7.3 OKECHAMP Global B.V. Edible Mushrooms Product and Services
 - 2.7.4 OKECHAMP Global B.V. Edible Mushrooms Sales Quantity, Average Price, Revenue, Gross Margin and Market Share (2021-2026)
 - 2.7.5 OKECHAMP Global B.V. Recent Developments/Updates
- 2.8 Prochamp B.V.
 - 2.8.1 Prochamp B.V. Details
 - 2.8.2 Prochamp B.V. Major Business
 - 2.8.3 Prochamp B.V. Edible Mushrooms Product and Services
 - 2.8.4 Prochamp B.V. Edible Mushrooms Sales Quantity, Average Price, Revenue, Gross Margin and Market Share (2021-2026)
 - 2.8.5 Prochamp B.V. Recent Developments/Updates
- 2.9 HOKUTO CORPORATION
 - 2.9.1 HOKUTO CORPORATION Details
 - 2.9.2 HOKUTO CORPORATION Major Business
 - 2.9.3 HOKUTO CORPORATION Edible Mushrooms Product and Services
 - 2.9.4 HOKUTO CORPORATION Edible Mushrooms Sales Quantity, Average Price, Revenue, Gross Margin and Market Share (2021-2026)
 - 2.9.5 HOKUTO CORPORATION Recent Developments/Updates
- 2.10 YUKIGUNI FACTORY CO., LTD.
 - 2.10.1 YUKIGUNI FACTORY CO., LTD. Details
 - 2.10.2 YUKIGUNI FACTORY CO., LTD. Major Business
 - 2.10.3 YUKIGUNI FACTORY CO., LTD. Edible Mushrooms Product and Services
 - 2.10.4 YUKIGUNI FACTORY CO., LTD. Edible Mushrooms Sales Quantity, Average Price, Revenue, Gross Margin and Market Share (2021-2026)
 - 2.10.5 YUKIGUNI FACTORY CO., LTD. Recent Developments/Updates
- 2.11 Shanghai Xuerong Biotechnology Co., Ltd.
 - 2.11.1 Shanghai Xuerong Biotechnology Co., Ltd. Details
 - 2.11.2 Shanghai Xuerong Biotechnology Co., Ltd. Major Business
 - 2.11.3 Shanghai Xuerong Biotechnology Co., Ltd. Edible Mushrooms Product and Services
 - 2.11.4 Shanghai Xuerong Biotechnology Co., Ltd. Edible Mushrooms Sales Quantity,

Average Price, Revenue, Gross Margin and Market Share (2021-2026)

2.11.5 Shanghai Xuerong Biotechnology Co., Ltd. Recent Developments/Updates

2.12 Tianshui Zhongxing Bio-Technology Co., Ltd.

2.12.1 Tianshui Zhongxing Bio-Technology Co., Ltd. Details

2.12.2 Tianshui Zhongxing Bio-Technology Co., Ltd. Major Business

2.12.3 Tianshui Zhongxing Bio-Technology Co., Ltd. Edible Mushrooms Product and Services

2.12.4 Tianshui Zhongxing Bio-Technology Co., Ltd. Edible Mushrooms Sales Quantity, Average Price, Revenue, Gross Margin and Market Share (2021-2026)

2.12.5 Tianshui Zhongxing Bio-Technology Co., Ltd. Recent Developments/Updates

2.13 JIANG SU CHINAGREEN BIOLOGICAL TECHNOLOGY GROUP CO., LTD.

2.13.1 JIANG SU CHINAGREEN BIOLOGICAL TECHNOLOGY GROUP CO., LTD. Details

2.13.2 JIANG SU CHINAGREEN BIOLOGICAL TECHNOLOGY GROUP CO., LTD. Major Business

2.13.3 JIANG SU CHINAGREEN BIOLOGICAL TECHNOLOGY GROUP CO., LTD. Edible Mushrooms Product and Services

2.13.4 JIANG SU CHINAGREEN BIOLOGICAL TECHNOLOGY GROUP CO., LTD. Edible Mushrooms Sales Quantity, Average Price, Revenue, Gross Margin and Market Share (2021-2026)

2.13.5 JIANG SU CHINAGREEN BIOLOGICAL TECHNOLOGY GROUP CO., LTD. Recent Developments/Updates

2.14 Ruyiqing Biotechnology Co., Ltd.

2.14.1 Ruyiqing Biotechnology Co., Ltd. Details

2.14.2 Ruyiqing Biotechnology Co., Ltd. Major Business

2.14.3 Ruyiqing Biotechnology Co., Ltd. Edible Mushrooms Product and Services

2.14.4 Ruyiqing Biotechnology Co., Ltd. Edible Mushrooms Sales Quantity, Average Price, Revenue, Gross Margin and Market Share (2021-2026)

2.14.5 Ruyiqing Biotechnology Co., Ltd. Recent Developments/Updates

2.15 Fujian Wanchen Food Group Co., Ltd.

2.15.1 Fujian Wanchen Food Group Co., Ltd. Details

2.15.2 Fujian Wanchen Food Group Co., Ltd. Major Business

2.15.3 Fujian Wanchen Food Group Co., Ltd. Edible Mushrooms Product and Services

2.15.4 Fujian Wanchen Food Group Co., Ltd. Edible Mushrooms Sales Quantity, Average Price, Revenue, Gross Margin and Market Share (2021-2026)

2.15.5 Fujian Wanchen Food Group Co., Ltd. Recent Developments/Updates

2.16 Dr. AG Co., Ltd.

2.16.2 Dr. AG Co., Ltd. Major Business

- 2.16.3 Dr. AG Co., Ltd. Edible Mushrooms Product and Services
- 2.16.4 Dr. AG Co., Ltd. Edible Mushrooms Sales Quantity, Average Price, Revenue, Gross Margin and Market Share (2021-2026)
- 2.16.5 Dr. AG Co., Ltd. Recent Developments/Updates
- 2.17 Champ Fungi Sdn. Bhd.
 - 2.17.1 Champ Fungi Sdn. Bhd. Details
 - 2.17.2 Champ Fungi Sdn. Bhd. Major Business
 - 2.17.3 Champ Fungi Sdn. Bhd. Edible Mushrooms Product and Services
 - 2.17.4 Champ Fungi Sdn. Bhd. Edible Mushrooms Sales Quantity, Average Price, Revenue, Gross Margin and Market Share (2021-2026)
 - 2.17.5 Champ Fungi Sdn. Bhd. Recent Developments/Updates
- 2.18 Tropical Mushrooms (Goa) Private Limited
 - 2.18.1 Tropical Mushrooms (Goa) Private Limited Details
 - 2.18.2 Tropical Mushrooms (Goa) Private Limited Major Business
 - 2.18.3 Tropical Mushrooms (Goa) Private Limited Edible Mushrooms Product and Services
 - 2.18.4 Tropical Mushrooms (Goa) Private Limited Edible Mushrooms Sales Quantity, Average Price, Revenue, Gross Margin and Market Share (2021-2026)
 - 2.18.5 Tropical Mushrooms (Goa) Private Limited Recent Developments/Updates
- 2.19 Costa Group
 - 2.19.1 Costa Group Details
 - 2.19.2 Costa Group Major Business
 - 2.19.3 Costa Group Edible Mushrooms Product and Services
 - 2.19.4 Costa Group Edible Mushrooms Sales Quantity, Average Price, Revenue, Gross Margin and Market Share (2021-2026)
 - 2.19.5 Costa Group Recent Developments/Updates

3 COMPETITIVE ENVIRONMENT: EDIBLE MUSHROOMS BY MANUFACTURER

- 3.1 Global Edible Mushrooms Sales Quantity by Manufacturer (2021-2026)
- 3.2 Global Edible Mushrooms Revenue by Manufacturer (2021-2026)
- 3.3 Global Edible Mushrooms Average Price by Manufacturer (2021-2026)
- 3.4 Market Share Analysis (2025)
 - 3.4.1 Producer Shipments of Edible Mushrooms by Manufacturer Revenue (\$MM) and Market Share (%): 2025
 - 3.4.2 Top 3 Edible Mushrooms Manufacturer Market Share in 2025
 - 3.4.3 Top 6 Edible Mushrooms Manufacturer Market Share in 2025
- 3.5 Edible Mushrooms Market: Overall Company Footprint Analysis
 - 3.5.1 Edible Mushrooms Market: Region Footprint

- 3.5.2 Edible Mushrooms Market: Company Product Type Footprint
- 3.5.3 Edible Mushrooms Market: Company Product Application Footprint
- 3.6 New Market Entrants and Barriers to Market Entry
- 3.7 Mergers, Acquisition, Agreements, and Collaborations

4 CONSUMPTION ANALYSIS BY REGION

- 4.1 Global Edible Mushrooms Market Size by Region
 - 4.1.1 Global Edible Mushrooms Sales Quantity by Region (2021-2032)
 - 4.1.2 Global Edible Mushrooms Consumption Value by Region (2021-2032)
 - 4.1.3 Global Edible Mushrooms Average Price by Region (2021-2032)
- 4.2 North America Edible Mushrooms Consumption Value (2021-2032)
- 4.3 Europe Edible Mushrooms Consumption Value (2021-2032)
- 4.4 Asia-Pacific Edible Mushrooms Consumption Value (2021-2032)
- 4.5 South America Edible Mushrooms Consumption Value (2021-2032)
- 4.6 Middle East & Africa Edible Mushrooms Consumption Value (2021-2032)

5 MARKET SEGMENT BY TYPE

- 5.1 Global Edible Mushrooms Sales Quantity by Type (2021-2032)
- 5.2 Global Edible Mushrooms Consumption Value by Type (2021-2032)
- 5.3 Global Edible Mushrooms Average Price by Type (2021-2032)

6 MARKET SEGMENT BY APPLICATION

- 6.1 Global Edible Mushrooms Sales Quantity by Application (2021-2032)
- 6.2 Global Edible Mushrooms Consumption Value by Application (2021-2032)
- 6.3 Global Edible Mushrooms Average Price by Application (2021-2032)

7 NORTH AMERICA

- 7.1 North America Edible Mushrooms Sales Quantity by Type (2021-2032)
- 7.2 North America Edible Mushrooms Sales Quantity by Application (2021-2032)
- 7.3 North America Edible Mushrooms Market Size by Country
 - 7.3.1 North America Edible Mushrooms Sales Quantity by Country (2021-2032)
 - 7.3.2 North America Edible Mushrooms Consumption Value by Country (2021-2032)
 - 7.3.3 United States Market Size and Forecast (2021-2032)
 - 7.3.4 Canada Market Size and Forecast (2021-2032)
 - 7.3.5 Mexico Market Size and Forecast (2021-2032)

8 EUROPE

- 8.1 Europe Edible Mushrooms Sales Quantity by Type (2021-2032)
- 8.2 Europe Edible Mushrooms Sales Quantity by Application (2021-2032)
- 8.3 Europe Edible Mushrooms Market Size by Country
 - 8.3.1 Europe Edible Mushrooms Sales Quantity by Country (2021-2032)
 - 8.3.2 Europe Edible Mushrooms Consumption Value by Country (2021-2032)
 - 8.3.3 Germany Market Size and Forecast (2021-2032)
 - 8.3.4 France Market Size and Forecast (2021-2032)
 - 8.3.5 United Kingdom Market Size and Forecast (2021-2032)
 - 8.3.6 Russia Market Size and Forecast (2021-2032)
 - 8.3.7 Italy Market Size and Forecast (2021-2032)

9 ASIA-PACIFIC

- 9.1 Asia-Pacific Edible Mushrooms Sales Quantity by Type (2021-2032)
- 9.2 Asia-Pacific Edible Mushrooms Sales Quantity by Application (2021-2032)
- 9.3 Asia-Pacific Edible Mushrooms Market Size by Region
 - 9.3.1 Asia-Pacific Edible Mushrooms Sales Quantity by Region (2021-2032)
 - 9.3.2 Asia-Pacific Edible Mushrooms Consumption Value by Region (2021-2032)
 - 9.3.3 China Market Size and Forecast (2021-2032)
 - 9.3.4 Japan Market Size and Forecast (2021-2032)
 - 9.3.5 South Korea Market Size and Forecast (2021-2032)
 - 9.3.6 India Market Size and Forecast (2021-2032)
 - 9.3.7 Southeast Asia Market Size and Forecast (2021-2032)
 - 9.3.8 Australia Market Size and Forecast (2021-2032)

10 SOUTH AMERICA

- 10.1 South America Edible Mushrooms Sales Quantity by Type (2021-2032)
- 10.2 South America Edible Mushrooms Sales Quantity by Application (2021-2032)
- 10.3 South America Edible Mushrooms Market Size by Country
 - 10.3.1 South America Edible Mushrooms Sales Quantity by Country (2021-2032)
 - 10.3.2 South America Edible Mushrooms Consumption Value by Country (2021-2032)
 - 10.3.3 Brazil Market Size and Forecast (2021-2032)
 - 10.3.4 Argentina Market Size and Forecast (2021-2032)

11 MIDDLE EAST & AFRICA

- 11.1 Middle East & Africa Edible Mushrooms Sales Quantity by Type (2021-2032)
- 11.2 Middle East & Africa Edible Mushrooms Sales Quantity by Application (2021-2032)
- 11.3 Middle East & Africa Edible Mushrooms Market Size by Country
 - 11.3.1 Middle East & Africa Edible Mushrooms Sales Quantity by Country (2021-2032)
 - 11.3.2 Middle East & Africa Edible Mushrooms Consumption Value by Country (2021-2032)
 - 11.3.3 Turkey Market Size and Forecast (2021-2032)
 - 11.3.4 Egypt Market Size and Forecast (2021-2032)
 - 11.3.5 Saudi Arabia Market Size and Forecast (2021-2032)
 - 11.3.6 South Africa Market Size and Forecast (2021-2032)

12 MARKET DYNAMICS

- 12.1 Edible Mushrooms Market Drivers
- 12.2 Edible Mushrooms Market Restraints
- 12.3 Edible Mushrooms Trends Analysis
- 12.4 Porters Five Forces Analysis
 - 12.4.1 Threat of New Entrants
 - 12.4.2 Bargaining Power of Suppliers
 - 12.4.3 Bargaining Power of Buyers
 - 12.4.4 Threat of Substitutes
 - 12.4.5 Competitive Rivalry

13 RAW MATERIAL AND INDUSTRY CHAIN

- 13.1 Raw Material of Edible Mushrooms and Key Manufacturers
- 13.2 Manufacturing Costs Percentage of Edible Mushrooms
- 13.3 Edible Mushrooms Production Process
- 13.4 Industry Value Chain Analysis

14 SHIPMENTS BY DISTRIBUTION CHANNEL

- 14.1 Sales Channel
 - 14.1.1 Direct to End-User
 - 14.1.2 Distributors
- 14.2 Edible Mushrooms Typical Distributors
- 14.3 Edible Mushrooms Typical Customers

15 RESEARCH FINDINGS AND CONCLUSION

16 APPENDIX

16.1 Methodology

16.2 Research Process and Data Source

16.3 Disclaimer

I would like to order

Product name: Global Edible Mushrooms Market 2026 by Manufacturers, Regions, Type and Application, Forecast to 2032

Product link: <https://marketpublishers.com/r/G5C331A466BCEN.html>

Price: US\$ 3,480.00 (Single User License / Electronic Delivery)

If you want to order Corporate License or Hard Copy, please, contact our Customer Service:

info@marketpublishers.com

Payment

To pay by Credit Card (Visa, MasterCard, American Express, PayPal), please, click button on product page <https://marketpublishers.com/r/G5C331A466BCEN.html>
