Scope of the Report:

This report studies the Education market status and outlook of Global and major regions, from angles of players, countries, product types and end industries; this report analyzes the top players in global market, and splits the Education market by product type and applications/end industries.

One trend in the market is rising awareness of early education. Early education has been a critical component of children's development. The growth of the early education market in the UAE has also proliferated due to the increasing awareness among parents regarding the criticality of the first three years of childhood and the increasing importance of education in these years.

With the continuous awareness and rising importance of education among the parents in the UAE, there has been a significant increase in the enrollments at various levels, including preK-12, high school, and graduate levels. The rising disposable income and increasing affordability of parents is another key factor contributing to the rising expenditure made by them on the education of their children. Parents are increasingly willing to invest money as well as time to help their children get the best start in their

lives and make them suitable for fighting in the highly competitive global job market.

The global Education market is valued at xx million USD in 2017 and is expected to reach xx million USD by the end of 2023, growing at a CAGR of xx% between 2017 and 2023.

The Asia-Pacific will occupy for more market share in following years, especially in China, also fast growing India and Southeast Asia regions.

North America, especially The United States, will still play an important role which cannot be ignored. Any changes from United States might affect the development trend of Education.
