Abstracts

According to our (Global Info Research) latest study, the global Electric Cabinet Lock market size was valued at US\$ 1132 million in 2025 and is forecast to a readjusted size of US\$ 1501 million by 2032 with a CAGR of 3.8% during review period.

In 2025, global sales of Electric Cabinet Lock reached approximately 50 million units, with an average market price of about USD 22 per unit, an annual production capacity of roughly 59 million units, and an industry-average gross margin of approximately 35%.

Electric Cabinet Locks (also referred to as electronic cabinet locks) are electromechanical locking devices mounted on electrical control cabinets, distribution boards, racks, IT/server cabinets, and storage lockers. They use a solenoid or micro-motor to drive the latch, and are controlled by keypads, RFID/IC cards, Bluetooth, bus signals, or integrated access-control commands. Typical formats include electronic swing-handles for enclosures, motor-driven lock bodies, and compact wireless smart cabinet locks, providing access-control-grade security for server cabinets, employee lockers and other storage enclosures.

Upstream, the value chain is dominated by suppliers of zinc-alloy / stainless-steel cast and stamped parts, engineering plastics, miniature motors and solenoids, PCB control boards, and RFID / keypad modules, along with plating, coating and cable-assembly partners. Midstream manufacturers assemble, test and brand the complete locks, often supplying both own-brand and OEM products. Downstream demand comes mainly from electrical switchgear and control cabinets, telecom and data-center racks, industrial control boxes, smart lockers, and storage systems in commercial, education and public facilities. Each cabinet door typically uses one or two electric cabinet locks, so total

consumption is driven by new cabinet installations plus retrofit / replacement cycles, closely tracking the growth of electrical enclosures, server cabinets and smart-locker deployments.

This report is a detailed and comprehensive analysis for global Electric Cabinet Lock market. Both quantitative and qualitative analyses are presented by manufacturers, by region & country, by Type and by Application. As the market is constantly changing, this report explores the competition, supply and demand trends, as well as key factors that contribute to its changing demands across many markets. Company profiles and product examples of selected competitors, along with market share estimates of some of the selected leaders for the year 2025, are provided.

Key Features:

Global Electric Cabinet Lock market size and forecasts, in consumption value (\$ Million), sales quantity (K Units), and average selling prices (US\$/Unit), 2021-2032

Global Electric Cabinet Lock market size and forecasts by region and country, in consumption value (\$ Million), sales quantity (K Units), and average selling prices (US\$/Unit), 2021-2032

Global Electric Cabinet Lock market size and forecasts, by Type and by Application, in consumption value (\$ Million), sales quantity (K Units), and average selling prices (US\$/Unit), 2021-2032

Global Electric Cabinet Lock market shares of main players, shipments in revenue (\$ Million), sales quantity (K Units), and ASP (US\$/Unit), 2021-2026

The Primary Objectives in This Report Are:

To determine the size of the total market opportunity of global and key countries

To assess the growth potential for Electric Cabinet Lock

To forecast future growth in each product and end-use market

To assess competitive factors affecting the marketplace

This report profiles key players in the global Electric Cabinet Lock market based on the following parameters - company overview, sales quantity, revenue, price, gross margin, product portfolio, geographical presence, and key developments. Key companies covered as a part of this study include Yale, Allegion, ASSA ABLOY, Armstrong, Be-Tech, CompX, TAI SAM CORPORATION, Uhlmann & Zacher, Digilock, SINOX, etc.

This report also provides key insights about market drivers, restraints, opportunities, new product launches or approvals.

Market Segmentation

Electric Cabinet Lock market is split by Type and by Application. For the period 2021-2032, the growth among segments provides accurate calculations and forecasts for consumption value by Type, and by Application in terms of volume and value. This analysis can help you expand your business by targeting qualified niche markets.

Market segment by Type

Solenoid-driven

Motor-driven

Market segment by Operating Method

Password-based

Inductive

Biometric Identification

Market segment by Application

Commerical

Home

Others

Major players covered

Yale

Allegion

ASSA ABLOY

Armstrong

Be-Tech

CompX

TAI SAM CORPORATION

Uhlmann & Zacher

Digilock

SINOX

SHENZHEN YLI ELECTRIC

LEEKA

Elock Security

Market segment by region, regional analysis covers
North America (United States, Canada, and Mexico)
Europe (Germany, France, United Kingdom, Russia, Italy, and Rest of Europe)
Asia-Pacific (China, Japan, Korea, India, Southeast Asia, and Australia)
South America (Brazil, Argentina, Colombia, and Rest of South America)
Middle East & Africa (Saudi Arabia, UAE, Egypt, South Africa, and Rest of Middle East & Africa)

The content of the study subjects, includes a total of 15 chapters:

Chapter 1, to describe Electric Cabinet Lock product scope, market overview, market estimation caveats and base year.

Chapter 2, to profile the top manufacturers of Electric Cabinet Lock, with price, sales quantity, revenue, and global market share of Electric Cabinet Lock from 2021 to 2026.

Chapter 3, the Electric Cabinet Lock competitive situation, sales quantity, revenue, and global market share of top manufacturers are analyzed emphatically by landscape contrast.

Chapter 4, the Electric Cabinet Lock breakdown data are shown at the regional level, to show the sales quantity, consumption value, and growth by regions, from 2021 to 2032.

Chapter 5 and 6, to segment the sales by Type and by Application, with sales market share and growth rate by Type, by Application, from 2021 to 2032.

Chapter 7, 8, 9, 10 and 11, to break the sales data at the country level, with sales quantity, consumption value, and market share for key countries in the world, from 2021 to 2026. and Electric Cabinet Lock market forecast, by regions, by Type, and by Application, with sales and revenue, from 2027 to 2032.

Chapter 12, market dynamics, drivers, restraints, trends, and Porters Five Forces analysis.

Chapter 13, the key raw materials and key suppliers, and industry chain of Electric Cabinet Lock.

Chapter 14 and 15, to describe Electric Cabinet Lock sales channel, distributors, customers, research findings and conclusion.
