Abstracts

The global Electric Cabinet Lock market size is expected to reach \$ 1501 million by 2032, rising at a market growth of 3.8% CAGR during the forecast period (2026-2032).

In 2025, global sales of Electric Cabinet Lock reached approximately 50 million units, with an average market price of about USD 22 per unit, an annual production capacity of roughly 59 million units, and an industry-average gross margin of approximately 35%.

Electric Cabinet Locks (also referred to as electronic cabinet locks) are electromechanical locking devices mounted on electrical control cabinets, distribution boards, racks, IT/server cabinets, and storage lockers. They use a solenoid or micro-motor to drive the latch, and are controlled by keypads, RFID/IC cards, Bluetooth, bus signals, or integrated access-control commands. Typical formats include electronic swing-handles for enclosures, motor-driven lock bodies, and compact wireless smart cabinet locks, providing access-control-grade security for server cabinets, employee lockers and other storage enclosures.

Upstream, the value chain is dominated by suppliers of zinc-alloy / stainless-steel cast and stamped parts, engineering plastics, miniature motors and solenoids, PCB control boards, and RFID / keypad modules, along with plating, coating and cable-assembly partners. Midstream manufacturers assemble, test and brand the complete locks, often supplying both own-brand and OEM products. Downstream demand comes mainly from electrical switchgear and control cabinets, telecom and data-center racks, industrial control boxes, smart lockers, and storage systems in commercial, education and public facilities. Each cabinet door typically uses one or two electric cabinet locks, so total consumption is driven by new cabinet installations plus retrofit / replacement cycles, closely tracking the growth of electrical enclosures, server cabinets and smart-locker

deployments.

This report studies the global Electric Cabinet Lock production, demand, key manufacturers, and key regions.

This report is a detailed and comprehensive analysis of the world market for Electric Cabinet Lock and provides market size (US\$ million) and Year-over-Year (YoY) Growth, considering 2025 as the base year. This report explores demand trends and competition, as well as details the characteristics of Electric Cabinet Lock that contribute to its increasing demand across many markets.

Highlights and key features of the study

Global Electric Cabinet Lock total production and demand, 2021-2032, (K Units)

Global Electric Cabinet Lock total production value, 2021-2032, (USD Million)

Global Electric Cabinet Lock production by region & country, production, value, CAGR, 2021-2032, (USD Million) & (K Units), (based on production site)

Global Electric Cabinet Lock consumption by region & country, CAGR, 2021-2032 & (K Units)

U.S. VS China: Electric Cabinet Lock domestic production, consumption, key domestic manufacturers and share

Global Electric Cabinet Lock production by manufacturer, production, price, value and market share 2021-2026, (USD Million) & (K Units)

Global Electric Cabinet Lock production by Type, production, value, CAGR, 2021-2032, (USD Million) & (K Units)

Global Electric Cabinet Lock production by Application, production, value, CAGR, 2021-2032, (USD Million) & (K Units)

This report profiles key players in the global Electric Cabinet Lock market based on the following parameters - company overview, production, value, price, gross margin, product portfolio, geographical presence, and key developments. Key companies covered as a part of this study include Yale, Allegion, ASSA ABLOY, Armstrong, Be-

Tech, CompX, TAI SAM CORPORATION, Uhlmann & Zacher, Digilock, SINOX, etc.

This report also provides key insights about market drivers, restraints, opportunities, new product launches or approvals.

Stakeholders would have ease in decision-making through various strategy matrices used in analyzing the World Electric Cabinet Lock market

Detailed Segmentation:

Each section contains quantitative market data including market by value (US\$ Millions), volume (production, consumption) & (K Units) and average price (US\$/Unit) by manufacturer, by Type, and by Application. Data is given for the years 2021-2032 by year with 2025 as the base year, 2026 as the estimate year, and 2027-2032 as the forecast year.

Global Electric Cabinet Lock Market, By Region:

United States

China

Europe

Japan

South Korea

ASEAN

India

Rest of World

Global Electric Cabinet Lock Market, Segmentation by Type:

Solenoid-driven

Motor-driven

Global Electric Cabinet Lock Market, Segmentation by Operating Method:

Password-based

Inductive

Biometric Identification

Global Electric Cabinet Lock Market, Segmentation by Application:

Commerical

Home

Others

Companies Profiled:

Yale

Allegion

ASSA ABLOY

Armstrong

Be-Tech

CompX

TAI SAM CORPORATION

Uhlmann & Zacher

Digilock

SINOX

SHENZHEN YLI ELECTRIC

LEEKA

Elock Security

Key Questions Answered:

1. How big is the global Electric Cabinet Lock market?
2. What is the demand of the global Electric Cabinet Lock market?
3. What is the year over year growth of the global Electric Cabinet Lock market?
4. What is the production and production value of the global Electric Cabinet Lock market?
5. Who are the key producers in the global Electric Cabinet Lock market?
6. What are the growth factors driving the market demand?

I would like to order

Product name: Global Electric Cabinet Lock Supply, Demand and Key Producers, 2026-2032

Product link: <https://marketpublishers.com/r/GDFBDBC7BE98EN.html>

Price: US\$ 4,480.00 (Single User License / Electronic Delivery)
