Abstracts

The electronic pressure sensitive tape dispenser is lightweight and made of thinner material. It reduces the time for assembling and makes a bond between two dissimilar materials without any problem. Moreover, the electronic pressure sensitive tape dispenser is a durable product which can be customized easily.

The dispensers are capable of diminishing the visible bolts or mechanical affixers in a product for providing a superior cosmetic look with uniform thickness. These are some of the key factors which are driving the growth of the electronic pressure sensitive tape dispenser in the packaging industry.
