Abstracts

An ERG is a device that measures the functional ability of the retina to respond to light; essentially testing to see if it is working properly. A sophisticated contact lens is placed on the eye and connected to a computer. A light is flashed at the eye and every time the light flashes, the retina should react and a wave that is captured on the computer. An ERG is used prior to cataract surgery to ensure that there is enough retinal function to warrant surgery as well as to make the diagnosis of different diseases of the retina.

Scope of the Report:

This report focuses on the Electroretinography in global market, especially in North America, Europe and Asia-Pacific, South America, Middle East and Africa. This report categorizes the market based on manufacturers, regions, type and application. Geographically, the consumption market is leading by North America and Europe, sales in Asia Pacific regions like China, Japan, Southeast Asia and India will see significant growth in future period. In terms of year 2017, Europe holds the largest market share, with about 702 Units sales volume, followed by North America, with about 41.96% market share in 2017. North America and Europe will keep playing important role in Global market.

Global leading manufacturers are mostly based in USA and European countries like Germany, France, Italy and etc. CSO Italia and Diagnosys LLC are the biggest two players in Electroretinography market, with about 24.72% and 19.27% market share separately in 2017. Other leading market players in Electroretinography market include LKC Technologies, Inc, Electro-Diagnostic Imaging, Inc., Diopsys, Inc., etc. the market competition may become more intense with more innovation products, acquisitions and

improvement of raw material cost control and etc.

Each of the Electroretinography manufacturers has its own mature sales networks. Through retailer and resells, their authorized distributors or their partners, those Electroretinography manufacturers keep keen on expanding their Electroretinography sales. To achieve better sales businesses, Electroretinography manufacturers usually invest on their marketing channel infrastructure every year.

The worldwide market for Electroretinography is expected to grow at a CAGR of roughly 6.7% over the next five years, will reach 49 million US$ in 2023, from 33 million US$ in 2017, according to a new GIR (Global Info Research) study.

Market Segment by Manufacturers, this report covers

LKC Technologies, Inc

Diagnosys LLC

Electro-Diagnostic Imaging, Inc.

Diopsys, Inc.

Roland-consult

Metrovision

CSO Italia

Market Segment by Regions, regional analysis covers

North America (United States, Canada and Mexico)

Europe (Germany, France, UK, Russia and Italy)

Asia-Pacific (China, Japan, Korea, India and Southeast Asia)

South America (Brazil, Argentina, Colombia etc.)

ROW

Market Segment by Applications, can be divided into

Fixed ERG

Portable ERG

There are 15 Chapters to deeply display the global Electroretinography market.

Chapter 1, to describe Electroretinography Introduction, product scope, market overview, market opportunities, market risk, market driving force;
Chapter 2, to analyze the top manufacturers of Electroretinography, with sales, revenue, and price of Electroretinography, in 2016 and 2017;
Chapter 3, to display the competitive situation among the top manufacturers, with sales, revenue and market share in 2016 and 2017;
Chapter 4, to show the global market by regions, with sales, revenue and market share of Electroretinography, for each region, from 2013 to 2018;
Chapter 5, 6, 7, 8 and 9, to analyze the market by countries, by type, by application and by manufacturers, with sales, revenue and market share by key countries in these regions;
Chapter 10 and 11, to show the market by type and application, with sales market share and growth rate by type, application, from 2013 to 2018;
Chapter 12, Electroretinography market forecast, by regions, type and application, with sales and revenue, from 2018 to 2023;
Chapter 13, 14 and 15, to describe Electroretinography sales channel, distributors, traders, dealers, Research Findings and Conclusion, appendix and data source
