## Abstracts

The global Elevator Induction Light Curtain market size is expected to reach \$ 666 million by 2029, rising at a market growth of 5.3% CAGR during the forecast period (2023-2029).

According to data released by the National Bureau of Statistics, China's elevator production in 2022 will be 1.455 million units, a decrease of 5.8% from the same period last year. After years of development, China has become the world's largest elevator producer and consumer. More than 70% of the world's elevator manufacturing business is in mainland China, and 60%-65% of the world's elevators are sold in the Chinese market. Data from the China Elevator Association shows that by the end of 2022, the number of registered elevators in operation in China has reached 9.65 million, and more than 15,000 elevators have been accepted and installed.

Light curtains allow passengers to move freely in and out of the elevator, holding the doors open as long as 'beams' are blocked in the door opening
