Abstracts

Email archiving is the act of preserving and making searchable all email to/from an individual. Email archiving solutions capture email content either directly from the email application itself or during transport. The messages are typically then stored on magnetic disk storage and indexed to simplify future searches. In addition to simply accumulating email messages, these applications index and provide quick, searchable access to archived messages independent of the users of the system using a couple of different technical methods of implementation. The reasons a company may opt to implement an email archiving solution include protection of mission critical data, to meet retention and supervision requirements of applicable regulations, and for e-discovery purposes.

SCOPE OF THE REPORT:

This report studies the Email Archival market status and outlook of Global and major regions, from angles of players, countries, product types and end industries; this report analyzes the top players in global market, and splits the Email Archival market by product type and applications/end industries.

The email archiving market has seen a noticeable uptick in recent years. Businesses have been increasingly compelled to get a grip on their email systems due to regulatory compliance requirements. They must now ensure that the valuable information contained in emails is kept, searchable and doesn't overwhelm storage resources.

The global Email Archival market is valued at xx million USD in 2017 and is expected to reach xx million USD by the end of 2023, growing at a CAGR of xx% between 2017 and 2023.

The Asia-Pacific will occupy for more market share in following years, especially in

China, also fast growing India and Southeast Asia regions.

North America, especially The United States, will still play an important role which cannot be ignored. Any changes from United States might affect the development trend of Email Archival.

Market Segment by Companies, this report covers

Autonomy

CA

EMC

Hewlett-Packard

IBM

Mimosa Systems

Symantec.

Dell's MessageOne

Google

Iron Mountain.

ArcMail Technology

Barracuda Networks

Intradyn

Market Segment by Regions, regional analysis covers

North America (United States, Canada and Mexico)

Europe (Germany, France, UK, Russia and Italy)

Asia-Pacific (China, Japan, Korea, India and Southeast Asia)

South America (Brazil, Argentina, Colombia)

Middle East and Africa (Saudi Arabia, UAE, Egypt, Nigeria and South Africa)

Market Segment by Type, covers

On-premises Systems

Hosted Offerings and Software-as-a-service

Email Archiving Appliances

Market Segment by Applications, can be divided into

Small Enterprise

Medium-sized Enterprise

Large Enterprise
