Abstracts

Information rights management (IRM) is a subset of digital rights management (DRM), technologies that protect sensitive information from unauthorized access. It is sometimes referred to as E-DRM or Enterprise Digital Rights Management. This can cause confusion, because digital rights management (DRM) technologies are typically associated with business to consumer systems designed to protect rich media such as music and video. IRM is a technology which allows for information (mostly in the form of documents) to be ‘remote controlled’.
