Abstracts

Enterprise Permitting and Licensing Software is the tool for receiving applications, taking payments, issuing permits, resulting inspections and generating reports. Enterprise Permitting and Licensing Software is used to track the workflows involved with individual and business applications for permits (such as building permits), and governments tracking the adherence to various laws and regulations by organizations operating in their jurisdictions. Enterprise Permitting & Business Licensing Software - Municipal software that manages permit requests, approvals, and denials for a variety of regulated activities. The software assists with calculating and collecting permit fees and generating reports. Permits include building permits, land use permits, peddler permits, activity permits, and more. The system also helps assign and schedule inspections for permit requests. Municipalities spend money on these types of systems because they are revenue generators and players often sell the software under the "Community Development" heading. While a few players offer systems that only do permitting, most vendor software also supports business licenses as well.

This report studies the global Enterprise Permitting and Licensing Software demand, key companies, and key regions.

This report is a detailed and comprehensive analysis of the world market for Enterprise Permitting and Licensing Software, and provides market size (US\$ million) and Year-over-Year (YoY) growth, considering 2022 as the base year. This report explores demand trends and competition, as well as details the characteristics of Enterprise Permitting and Licensing Software that contribute to its increasing demand across many markets.

The global Enterprise Permitting and Licensing Software market size is expected to

reach \$ million by 2029, rising at a market growth of % CAGR during the forecast period (2023-2029).

In North America, the major players of enterprise licensed software are Tyler Technologies, Infor, EdgeSoft, Oracle, and Computronix, with the top five players accounting for approximately 24% of the market. In terms of product type, cloud-based enterprise permitting and licensing software is the largest market segment with a 78 percent share, and in terms of applications, building permits account for the largest share at about 59 percent.

Highlights and key features of the study

Global Enterprise Permitting and Licensing Software total market, 2018-2029, (USD Million)

Global Enterprise Permitting and Licensing Software total market by region & country, CAGR, 2018-2029, (USD Million)

U.S. VS China: Enterprise Permitting and Licensing Software total market, key domestic companies and share, (USD Million)

Global Enterprise Permitting and Licensing Software revenue by player and market share 2018-2023, (USD Million)

Global Enterprise Permitting and Licensing Software total market by Type, CAGR, 2018-2029, (USD Million)

Global Enterprise Permitting and Licensing Software total market by Application, CAGR, 2018-2029, (USD Million)

This reports profiles major players in the global Enterprise Permitting and Licensing Software market based on the following parameters – company overview, revenue, gross margin, product portfolio, geographical presence, and key developments. Key companies covered as a part of this study include Tyler Technologies, Infor, EdgeSoft, Oracle, Computronix, Bitco Software, Clariti (formerly BasicGov), Brightly (Siemens) and Citizenserve, etc.

This report also provides key insights about market drivers, restraints, opportunities, new product launches or approvals, COVID-19 and Russia-Ukraine War Influence.

Stakeholders would have ease in decision-making through various strategy matrices used in analyzing the World Enterprise Permitting and Licensing Software market

Detailed Segmentation:

Each section contains quantitative market data including market by value (US\$ Millions), by player, by regions, by Type, and by Application. Data is given for the years 2018-2029 by year with 2022 as the base year, 2023 as the estimate year, and 2024-2029 as the forecast year.

Key Questions Answered

1. How big is the global Enterprise Permitting and Licensing Software market?
2. What is the demand of the global Enterprise Permitting and Licensing Software market?
3. What is the year over year growth of the global Enterprise Permitting and Licensing

Software market?

4. What is the total value of the global Enterprise Permitting and Licensing Software market?

5. Who are the major players in the global Enterprise Permitting and Licensing Software market?

6. What are the growth factors driving the market demand?
