The global Enterprise Search market size is expected to reach \$ 15990 million by 2032, rising at a market growth of 12.8% CAGR during the forecast period (2026-2032).

The increasing demand for time-saving data search solutions is expected to be the key growth factor for the enterprise search market. The increasing data volumes sourced from different gateways in the Search Appliances has created a need for managing it.
