Abstracts

According to our (Global Info Research) latest study, the global Enterprise Tablet market size was valued at USD million in 2023 and is forecast to a readjusted size of USD million by 2030 with a CAGR of % during review period.

An enterprise tablet is a mobile computer device that is larger than a smartphone or a phablet and smaller than a laptop and is used in enterprises by individual consumers. The screen size of these enterprise tablets is greater than 7 inches and smaller than 14 inches. The growing adoption of bring your own device (BYOD) policy in enterprises is a major driving factor for the market. While the enterprise tablets are replacing the large laptops and desktops that cost the company, the demand for enterprise tablets has increased as they offer similar functionalities.

The enterprise tablets segment with a screen size
