Abstracts

According to our (Global Info Research) latest study, the global EPDM/PP blend TPV Elastomer market size was valued at US\$ 240 million in 2024 and is forecast to a readjusted size of USD 345 million by 2031 with a CAGR of 6.0% during review period.

In this report, we will assess the current U.S. tariff framework alongside international policy adaptations, analyzing their effects on competitive market structures, regional economic dynamics, and supply chain resilience.

TPV (thermoplastic vulcanizate) is a type of thermoplastic elastomer (TPE) that combines the properties of vulcanized rubber and thermoplastics. It is typically produced by dynamically vulcanizing a rubber phase (such as EPDM or nitrile rubber) in a thermoplastic matrix (such as polypropylene). This process creates a material with excellent elasticity, resilience and weatherability, similar to vulcanized rubber, but with the processing advantages of thermoplastics, such as ease of molding and recyclability. TPVs are used in a variety of applications, including automotive seals, weather stripping and industrial parts.

This report is a detailed and comprehensive analysis for global EPDM/PP blend TPV Elastomer market. Both quantitative and qualitative analyses are presented by manufacturers, by region & country, by PP Content and by Application. As the market is constantly changing, this report explores the competition, supply and demand trends, as well as key factors that contribute to its changing demands across many markets. Company profiles and product examples of selected competitors, along with market share estimates of some of the selected leaders for the year 2025, are provided.

Key Features:

Global EPDM/PP blend TPV Elastomer market size and forecasts, in consumption value (\$ Million), sales quantity (Tons), and average selling prices (US\$/Ton), 2020-2031

Global EPDM/PP blend TPV Elastomer market size and forecasts by region and country, in consumption value (\$ Million), sales quantity (Tons), and average selling prices (US\$/Ton), 2020-2031

Global EPDM/PP blend TPV Elastomer market size and forecasts, by PP Content and by Application, in consumption value (\$ Million), sales quantity (Tons), and average selling prices (US\$/Ton), 2020-2031

Global EPDM/PP blend TPV Elastomer market shares of main players, shipments in revenue (\$ Million), sales quantity (Tons), and ASP (US\$/Ton), 2020-2025

The Primary Objectives in This Report Are:

- To determine the size of the total market opportunity of global and key countries
- To assess the growth potential for EPDM/PP blend TPV Elastomer
- To forecast future growth in each product and end-use market
- To assess competitive factors affecting the marketplace

This report profiles key players in the global EPDM/PP blend TPV Elastomer market based on the following parameters - company overview, sales quantity, revenue, price, gross margin, product portfolio, geographical presence, and key developments. Key companies covered as a part of this study include Celanese, Teknor Apex, Mitsui Chemicals, Shandong Dawn Polymer, Elastron, Kumho Petrochemical, Top Polymer, Mitsubishi Chemical, WANMA TECHNOLOGY, Nantex Industry, etc.

This report also provides key insights about market drivers, restraints, opportunities, new product launches or approvals.

Market Segmentation

EPDM/PP blend TPV Elastomer market is split by PP Content and by Application. For the period 2020-2031, the growth among segments provides accurate calculations and forecasts for consumption value by PP Content, and by Application in terms of volume and value. This analysis can help you expand your business by targeting qualified niche markets.
