## Abstracts

The global ESG Consulting and Management market size is expected to reach \$ 28353 million by 2032, rising at a market growth of 8.8% CAGR during the forecast period (2026-2032).

ESG consulting and management refers to the systematic identification, evaluation, integration, execution, and optimization of a company's performance in the three dimensions of environment, social, and governance by leveraging external professional organizations or internal functional systems, and integrating it into the entire process of strategic decision-making, operational processes, and risk control.

ESG Consultant is a professional who advises companies on Environmental, Social, and Governance (ESG) issues. They help organizations integrate sustainable practices into their business strategies, improve their ESG performance, and meet regulatory requirements. ESG Consultants perform various tasks, including conducting ESG risk assessments, developing sustainability strategies, designing ESG reporting frameworks, and supporting companies in engaging with stakeholders. They also help organizations align with international ESG standards, such as the Global Reporting Initiative (GRI), the United Nations Sustainable Development Goals (SDGs), and the Task Force on Climate-Related Financial Disclosures (TCFD). ESG Consultants play a crucial role in assisting companies in enhancing their reputation, attracting socially responsible investors, and contributing to a more sustainable future.

This report studies the global ESG Consulting and Management demand, key companies, and key regions.
