According to our (Global Info Research) latest study, the global Etoxazole market size was valued at USD million in 2023 and is forecast to a readjusted size of USD million by 2030 with a CAGR of % during review period.

Acaridazole (SC) is a new acaricide with special structure developed by sumitomo chemical co., LTD.

Diphenyl oxazoline derivative is diphenyl oxazoline derivative. The pure product, which has the appearance of white crystal powder, can inhibit the embryo formation of mite eggs and the molting process from larvae to adults. It is effective for eggs and larvae, but not for adults. However, it has a good sterile effect on female adults. Therefore, the best control time is the early stage of mite damage.
