Abstracts

According to our (Global Info Research) latest study, the global Event Supply Rental market size was valued at US\$ 13750 million in 2024 and is forecast to a readjusted size of USD 26870 million by 2031 with a CAGR of 10.2% during review period.

Event supply rental refers to the service of renting various items and equipment needed for events such as weddings, parties, corporate gatherings, and other occasions. This service provides temporary access to a wide range of items that can enhance the event experience without the need for permanent ownership.

The party supply rental market is experiencing growth due to the increasing trend of people opting to rent items for various events and parties. Renting party supplies can be more cost-effective for individuals and businesses than buying items outright, especially for one-time events. The growing trend of hosting unique and personalized events is driving the demand for a variety of party supplies, which individuals may prefer to rent rather than buy. The overall increase in the number of events, including weddings, corporate events and private parties, has had a positive impact on the demand for party supplies rental services.
