F-class, a long-range shooting competition, is named after its founder, Canadian George Farquharson who made a tremendous impact on target shooting. In the mid to late 1990s, he reached an agreement with the Dominion of Canada Rifle Association to allow the use of bipods and scopes in addition to slings and iron sights in competitions. In F-class, the competitors shoot at targets 300–1000 m away in the prone position. The goal is to shoot tight groupings of 15–20 shots as close to the center as possible. The F-class high-precision scope can play a professional auxiliary role for the F-class.
