Abstracts

The global Fastener Sorting Solution market size is expected to reach $ 365 million by 2032, rising at a market growth of 4.2% CAGR during the forecast period (2026-2032).

Fastener Sorting Solution is an integrated industrial quality control system that integrates feeding, conveying, detection and sorting actuators. It automatically classifies, screens and rejects fasteners (bolts, screws, nuts, rivets, washers, etc.) according to dimensional specifications, surface defects, material properties and mixed batch conditions. Replacing manual visual sorting with machine vision, eddy current testing and laser measurement technologies, it achieves high-throughput and high-precision quality grading and defective product removal, ensuring the consistency and compliance of fastener products in downstream assembly processes.

The fastener sorting solution market has witnessed steady growth over the years, driven by factors such as increasing demand for fasteners in industries like automotive, aerospace, construction, and manufacturing. With the growing complexity and diversity of fasteners used in these industries, there is a need for efficient sorting and inspection systems to ensure quality control and meet industry standards. One of the key drivers for the fastener sorting solution market is the emphasis on quality assurance and compliance with regulatory standards. Fasteners play a critical role in ensuring the safety and reliability of assembled products, and any defects or discrepancies in fasteners can lead to operational issues or product failures. Fastener sorting solutions help identify and remove defective or non-compliant fasteners from the production line, ensuring that only high-quality fasteners are used in manufacturing processes. Additionally, the market is also influenced by the adoption of automation and Industry 4.0 principles in manufacturing. Fastener sorting solutions often incorporate advanced technologies such as machine vision, artificial intelligence, robotics, and data analytics

to enable high-speed and accurate sorting, inspection, and data management. These technologies enhance productivity, reduce human error, and provide real-time insights for process optimization. The fastener sorting solution market can be segmented based on technology, end-use industry, and region. Different technologies used in fastener sorting solutions include optical sorting, laser sorting, eddy current sorting, and magnetic sorting, among others. End-use industries include automotive, aerospace, construction, manufacturing, and others.

Report Scope

This report studies the global Fastener Sorting Solution demand, key companies, and key regions.

This report is a detailed and comprehensive analysis of the world market for Fastener Sorting Solution, and provides market size (US$ million) and Year-over-Year (YoY) growth, considering 2025 as the base year. This report explores demand trends and competition, as well as details the characteristics of Fastener Sorting Solution that contribute to its increasing demand across many markets.

Highlights and key features of the study

Global Fastener Sorting Solution total market, 2021-2032, (USD Million)

Global Fastener Sorting Solution total market by region & country, CAGR, 2021-2032, (USD Million)

U.S. VS China: Fastener Sorting Solution total market, key domestic companies, and share, (USD Million)

Global Fastener Sorting Solution revenue by player, revenue and market share 2021-2026, (USD Million)

Global Fastener Sorting Solution total market by Type, CAGR, 2021-2032, (USD Million)

Global Fastener Sorting Solution total market by Application, CAGR, 2021-2032, (USD Million)

This report profiles major players in the global Fastener Sorting Solution market based on the following parameters - company overview, revenue, gross margin, product portfolio, geographical presence, and key developments. Key companies covered as a part of this study include DIMAC SRL, Champs Inspection Technologies, Cosmec Group, Mectron Inspection Systems, General Inspection LLC, FOERSTER Group, Cimbria, SWD, Inc., Jesse Garant Metrology Center, Rauch Industries, etc.

This report also provides key insights about market drivers, restraints, opportunities, new product launches or approvals.

Stakeholders would have ease in decision-making through various strategy matrices used in analyzing the world Fastener Sorting Solution market

Detailed Segmentation:

Each section contains quantitative market data including market by value (US$ Millions), by player, by regions, by Type, and by Application. Data is given for the years 2021-2032 by year with 2025 as the base year, 2026 as the estimate year, and 2027-2032 as the forecast year.
