Abstracts

Fintech lenders employ the latest financial technologies to streamline the traditionally out-of-date and non-transparent lending process. Not only has fintech given lenders the power to speed up their payment processing times and de-mystify their policies, but it has also given lenders the ability to offer personalized experiences based on each loan and mortgage seeker’s needs.

According to our (Global Info Research) latest study, the global Fintech Lending market size was valued at US$ 463880 million in 2023 and is forecast to a readjusted size of USD 1268030 million by 2030 with a CAGR of 15.6% during review period.

Global fintech lending key players include Ant Group, JD Digits, Du Xiaoman Finance, SoFi, GrabFinance, etc. Global top 5 manufacturers hold a share over 40%.

Asia-Pacific is the largest market, with a share over 45%, followed by North America, and Europe, both have a share about 45 percent. In terms of product, P2P business lending is the largest segment, with a share over 50%. And in terms of application, the largest application is private lending, followed by company lending, etc.

This report is a detailed and comprehensive analysis for global Fintech Lending market. Both quantitative and qualitative analyses are presented by company, by region & country, by Type and by Application. As the market is constantly changing, this report explores the competition, supply and demand trends, as well as key factors that contribute to its changing demands across many markets.
