## Abstracts

According to our (Global Info Research) latest study, the global Fishing Clothing market size was valued at USD 1159 million in 2022 and is forecast to a readjusted size of USD 1781.6 million by 2029 with a CAGR of 6.3% during review period. The influence of COVID-19 and the Russia-Ukraine War were considered while estimating market sizes.

Whilst having the right kit is essential for any good angler, some would say the most important element is the clothing that they wear. There is a reason that people have a traditional image of a fisherman in a woollen sweater, waxed raincoat and wellington boots, despite there being no actual uniform. Fishing clothing needs to be comfortable, waterproof and warm enough to offer protection against the elements during your time at the water's edge.

This report is a detailed and comprehensive analysis for global Fishing Clothing market. Both quantitative and qualitative analyses are presented by company, by region & country, by Type and by Application. As the market is constantly changing, this report explores the competition, supply and demand trends, as well as key factors that contribute to its changing demands across many markets. Company profiles and product examples of selected competitors, along with market share estimates of some of the selected leaders for the year 2023, are provided.

Key Features:
