Abstracts

The global Fixed Towbars for Retrofit market size is expected to reach $ 419 million by 2032, rising at a market growth of 3.0% CAGR during the forecast period (2026-2032).

In 2025, global production of fixed towbars for retrofit reached 2.95 million units, with an average selling price of US$108.40 per unit, production capacity of 3.58 million units, and a gross margin of 27.2%.

Fixed towbars for retrofit are permanently mounted towing devices installed on a vehicle’s chassis or rear frame through the automotive aftermarket after the vehicle has been manufactured and delivered. They generally comprise a crossmember, vehicle-specific mounting brackets, connecting arms, and a fixed tow ball. The product must be matched to the vehicle’s chassis structure, towing capacity, and applicable regulatory requirements. It is used for towing caravans, utility trailers, and boat trailers and may also support bicycle or cargo carriers, offering relatively low cost, structural reliability, stable load-bearing capacity, and limited maintenance requirements.

The global fixed towbars for retrofit market maintained stable growth in 2025, mainly driven by the expanding installed base of SUVs, pickup trucks, and light commercial vehicles, together with increasing demand for camping, caravan travel, boat transportation, and outdoor activities. Compared with detachable and electrically retractable products, fixed towbars are less expensive and more durable, giving them clear advantages among price-sensitive consumers, commercial vehicles, and frequent-towing applications. Europe and North America remain the principal consumer markets, while online automotive-parts platforms, specialist towing-equipment distributors, and retrofit workshops represent the major sales channels. As electric-vehicle penetration increases, manufacturers need to strengthen chassis compatibility, crash-safety

engineering, towing-capacity validation, and electrical wiring integration.

Report Scope

This report studies the global Fixed Towbars for Retrofit production, demand, key manufacturers, and key regions.

This report is a detailed and comprehensive analysis of the world market for Fixed Towbars for Retrofit and provides market size (US$ million) and Year-over-Year (YoY) Growth, considering 2025 as the base year. This report explores demand trends and competition, as well as details the characteristics of Fixed Towbars for Retrofit that contribute to its increasing demand across many markets.

Highlights and key features of the study

Global Fixed Towbars for Retrofit total production and demand, 2021-2032, (K Units)

Global Fixed Towbars for Retrofit total production value, 2021-2032, (USD Million)

Global Fixed Towbars for Retrofit production by region & country, production, value, CAGR, 2021-2032, (USD Million) & (K Units), (based on production site)

Global Fixed Towbars for Retrofit consumption by region & country, CAGR, 2021-2032 & (K Units)

U.S. VS China: Fixed Towbars for Retrofit domestic production, consumption, key domestic manufacturers and share

Global Fixed Towbars for Retrofit production by manufacturer, production, price, value and market share 2021-2026, (USD Million) & (K Units)

Global Fixed Towbars for Retrofit production by Type, production, value, CAGR, 2021-2032, (USD Million) & (K Units)

Global Fixed Towbars for Retrofit production by Application, production, value,

CAGR, 2021-2032, (USD Million) & (K Units)

This report profiles key players in the global Fixed Towbars for Retrofit market based on the following parameters - company overview, production, value, price, gross margin, product portfolio, geographical presence, and key developments. Key companies covered as a part of this study include ACPS Automotive, Brink (DexKo Global Inc.), Westfalia-Automotive, CURT Manufacturing LLC, Jilin Universal Machinery, GDW Group, Witter Towbars, PCT Automotive, Tow-Trust Towbars Ltd, Bosal International, etc.

This report also provides key insights about market drivers, restraints, opportunities, new product launches or approvals.

Stakeholders would have ease in decision-making through various strategy matrices used in analyzing the World Fixed Towbars for Retrofit market

Detailed Segmentation:

Each section contains quantitative market data including market by value (US$ Millions), volume (production, consumption) & (K Units) and average price (US$/Unit) by manufacturer, by Type, and by Application. Data is given for the years 2021-2032 by year with 2025 as the base year, 2026 as the estimate year, and 2027-2032 as the forecast year.
