Abstracts

Flexible packaging finds extensive application in enclosing food and beverage products, irrespective of their size and shape. Flexible packaging is available in the form of pouches, wraps, flexible containers for both primary and secondary applications.

Scope of the Report:

This report focuses on the Flexible Food Packaging in global market, especially in North America, Europe and Asia-Pacific, South America, Middle East and Africa. This report categorizes the market based on manufacturers, regions, type and application.

The meat poultry and seafood segment dominated the market due to the high demand for plastic films in the packaging of these products and a shift towards case-ready packaging solutions. The confectionary and bakery segment followed closely. An increase in the production of new varieties of confectionaries and bakery products, and the demand for single serving options drives the demand of this segment.

The worldwide market for Flexible Food Packaging is expected to grow at a CAGR of roughly xx% over the next five years, will reach xx million US\$ in 2023, from xx million US\$ in 2017, according to a new GIR (Global Info Research) study.
