Abstracts

Flexible protective packaging products such as bubble wrap, air pillows, flexible foam, paper fills, and dunnage bags are used for filling empty spaces, block and bracing, and wrapping products during transit.

Scope of the Report:

This report focuses on the Flexible Protective Packaging in global market, especially in North America, Europe and Asia-Pacific, South America, Middle East and Africa. This report categorizes the market based on manufacturers, regions, type and application. The air pillow packaging segment accounted for the major shares and dominated the market. Air pillows manufactured in a continuous form are easy to tear off and also have smooth and soft surfaces, thereby offering a better alternative to other flexible protective packaging products. According to this market research study, the growing demand for protective packaging from the e-commerce sector will drive the market's growth prospects in this segment.

This market research and analysis estimates that in terms of geographical regions, APAC will be the major revenue contributor to the market by the end of the predicted period. Demographic trends such as increasing population and rapid urbanization and the economic factors such as industrialization, growth of the manufacturing sector, and increase in international trade, will drive the growth of the market in this region.

The worldwide market for Flexible Protective Packaging is expected to grow at a CAGR of roughly xx% over the next five years, will reach xx million US\$ in 2023, from xx million US\$ in 2017, according to a new GIR (Global Info Research) study.
