## Abstracts

The global Floor Saw market size is expected to reach \$ 727 million by 2032, rising at a market growth of 5.7% CAGR during the forecast period (2026-2032).

This report studies the Floor Saw market. A floor saw is a power tool used for cutting concrete and asphalt. It may be powered by gasoline, hydraulic or pneumatic pressure, or an electric motor. The saw blades used on concrete saws are often diamond saw blades to cut concrete, asphalt, stone, etc. Abrasive cut-off wheels can also be used on cut-off saws to cut stone and steel. The significant friction generated in cutting hard substances like concrete usually requires the blades to be cooled to prolong their life and reduce dust.

Global Floor Saw key players include Husqvarna, Norton Clipper, Wacker Neuson, Tyrolit, SIMA, etc. Global top five manufacturers hold a share about 60%. Europe is the largest market, with a share about 70%, followed by North America, with a share about 10 percent. In terms of product, Petrol Floor Saw is the largest segment, with a share about 65%. And in terms of application, the largest application is Highways, followed by Construction Sites, etc.

This report studies the global Floor Saw production, demand, key manufacturers, and key regions.

This report is a detailed and comprehensive analysis of the world market for Floor Saw and provides market size (US\$ million) and Year-over-Year (YoY) Growth, considering 2025 as the base year. This report explores demand trends and competition, as well as details the characteristics of Floor Saw that contribute to its increasing demand across many markets.
