Abstracts

A typeface is the design of lettering that can include variations, such as extra bold, bold, regular, light, italic, condensed, extended, etc. Each of these variations of the typeface is a font. There are thousands of different typefaces in existence, with new ones being developed constantly. In metal typesetting, a font was a particular size, weight and style of a typeface. Each font was a matched set of type, one piece for each glyph, and a typeface consisting of a range of fonts that shared an overall design.

This report studies the global Font and Typeface demand, key companies, and key regions.

This report is a detailed and comprehensive analysis of the world market for Font and Typeface, and provides market size (US\$ million) and Year-over-Year (YoY) growth, considering 2021 as the base year. This report explores demand trends and competition, as well as details the characteristics of Font and Typeface that contribute to its increasing demand across many markets.

The global Font and Typeface market size is expected to reach \$ 1505.3 million by 2028, rising at a market growth of 4.0% CAGR during the forecast period (2022-2028).

Highlights and key features of the study
