Abstracts

Based on product type, frozen seafood packaging can be divided into two categories: flexible packaging and rigid packaging.

Scope of the Report:

This report focuses on the Frozen Seafood Packaging in global market, especially in North America, Europe and Asia-Pacific, South America, Middle East and Africa. This report categorizes the market based on manufacturers, regions, type and application. Flexible packaging type accounts for major shares in the seafood delivery packaging market due to the wide variety of different packaging materials used. Easy-to-cook flexible packaging options are available with adaptable steam-valve that enables the customers to steam and prepare chilled food. Packaging manufacturers are using eco-friendly packaging materials to prepare pouches that can directly cook frozen food in microwave.

The Americas will be the major revenue contributor to the frozen seafood packaging market owing to increasing consumption of seafood and improvement in available packaging options. Residents consumed fish extensively and due to the rising exports of seafood, the demand for frozen packaging products increased. Plastic flexible bags and trays with overwraps are extensively used for transporting frozen seafood.

The worldwide market for Frozen Seafood Packaging is expected to grow at a CAGR of roughly xx% over the next five years, will reach xx million US\$ in 2023, from xx million US\$ in 2017, according to a new GIR (Global Info Research) study.
