Frozen vegan ice cream, or simply vegan ice cream, is a special ice cream product that is defined primarily by its ingredients and production process. The biggest feature of vegan ice cream is that it does not contain any ingredients from animals, such as milk, eggs, butter, cream, animal oils or gelatin. This makes vegan ice cream an ideal choice for vegetarians, lactose intolerant people, and those who are allergic to animal products. In order to replace the animal ingredients in traditional ice cream, vegan ice cream usually uses plant-based ingredients such as soy milk, coconut milk, almond milk, oat milk, etc. as a base, while adding fruits, juices, natural sweeteners (such as maple syrup, coconut sugar, etc.) and vegetable fats to enhance the taste and aroma.
