Frozen Vegan Meat refers to a frozen meat substitute made entirely from plant-based ingredients. This product does not contain any animal ingredients and is designed to meet the needs of vegetarians, lactose intolerant people, animal rights activists, and consumers who pursue a healthy diet. The main raw materials of Frozen Vegan Meat include plant proteins such as soybeans, peas, wheat, and corn, as well as vegetable oils, seasonings, etc. These raw materials are processed to form products with a meat-like taste and texture. In order to maintain the quality of the product and extend its shelf life, Frozen Vegan Meat is usually frozen after production. This helps inhibit the growth and reproduction of microorganisms, thereby ensuring the safety and stability of the product.
