Abstracts

Juices are consumed due to their health benefits. Juices aid in digestion and provide better immunity. Fruit and vegetable mixed juices have the added advantage of having low sugar content and more nutrients than normal fresh juices. Due to this, consumers tend to include fruit and vegetable mixed juices in their daily diets.

Scope of the Report:

This report focuses on the Fruit and Vegetable Mixed Juices in global market, especially in North America, Europe and Asia-Pacific, South America, Middle East and Africa. This report categorizes the market based on manufacturers, regions, type and application.

The ambient segment dominates the fruit and vegetable mixed juices market and accounted for the largest market share, in terms of revenue. The ambient juice products have a shelf life of more than one year. Also, several companies are coming up with new packaging innovations to improve the shelf life of juice products. Recently, Metsä Board has introduced a new packaging concept, called the elevated drink box, through which the consumers can easily and conveniently enjoy beverages.

Supermarkets and hypermarkets are the most popular distribution channels for fruit and vegetable mixed juice products. Much of the segment's growth is due to the high growth of organized retail in developed and developing economies. In the US, the number of supermarkets is increasing significantly, which has subsequently increased the product sales through these retail formats. The sales of fruit and vegetable mixed juice through the online channel are set to grow during the forecast period with the rising number of internet users and the penetration rate of internet.

The worldwide market for Fruit and Vegetable Mixed Juices is expected to grow at a
